SUBJECT INDEX*

A

Abdominal cutaneous nerve entrapment syndrome (Applegate), 118
trauma, blunt, diagnostic peritoneal lavage in: indications and results (Perry and Strate), 898
Abdominus, rectus, transection of: rapid hemostasis with automatic stapler (Moss), 246
Abscess formation and perforation in childhood, tuberculous enteritis with (Porter, Snowe, and Silver), 254
Acetylcysteine, 20 percent, use of (letter to editors) (Shaw), 922; Reply (Waddell), 922
Acid phosphatase, liver, as measure of hepatocyte resistance to hemorrhagic shock (Clermont, Williams, and Adams), 868
Acidosis, metabolic, and potassium deficiency, life-threatening postoperative, linked with new inborn error of nitrogen metabolism: esophageal hiatus hernia and mental retardation (Kluge et al.), 104
Adenomas, villous, of small intestine (Steinberg and Shieber), 423
Air fluid levels: their occurrence in normal patients and their role in analysis of ileus (Gammill and Nice), 771
Alimentary tract, duplications of: report of three unusual cases associated with bile and pancreatic ducts (Akers et al.), 817
Allograft(s), heart, rat, survival by thiamphenicol, prolongation of (Ono et al.), 258
lung, transplanted, heterotopic, as auxiliary oxygenator (Blank, Rodewald, and Linberg), 902
region, localization of ^{51}Cr-labeled sensitized lymphocytes at: possible diagnostic test in organ transplantation (Goren, Berke, and Urca), 507
renal, canine, rejection, early detection by reduction in scan bladder/kidney isotope intensity ratio (Hayes and Moore), 60
immunobiological diagnosis of rejection in dogs with (Häyry et al.), 494
Allopurinol, effect in renal ischemia (Vasko, DeWall, and Riley), 787
Ampicillin in anesthetized dog, biliary excretion of: effect of serum ampicillin concentration, taurocholate infusion rate, biliary secretion pressure, and secretin infusion (Mandiola et al.), 664
Anaplastic thyroid carcinoma, hormonal dependent: case report (Macgregor and Ham), 56
Anastomosis, aorta–right pulmonary artery during total correction of tetralogy of Fallot, management of (Ebert, Gay, and Oldham), 231
portacaval, aneurysm of inferior vena cava after (Conn and Ramsby), 828
Aneurysm of inferior vena cava after portacaval anastomosis (Conn and Ramsby), 828
Angiographic diagnosis, pathogenesis, and nonoperative control: bleeding cecal ulcer (Sutherland et al.), 290
Anorectal anomalies, rational radiological approach to surgical correction of (Cremin, Cywes, and Louw), 800
Antilymphocyte serum, heterologous nonthymic, on immune responses in mouse, effect of (Miller et al.), 881
Antral and fundic pouches, effect of physiologic and supramaximal doses of pentagastrin on mucosal blood flow in (Rudick et al.), 405
Anus, imperforate, associated with short colon (Singh and Pathak), 781
Aorta–right pulmonary artery anastomosis during total correction of tetralogy of Fallot, management of (Ebert, Gay, and Oldham), 231
Arterial blood flow, pulmonary, in reimplanted lungs of dogs (Yanes, Rudy, and Edmunds), 576
disease, occlusive, of lower extremities, comparative study of strain-gauge plethysmography and Doppler ultrasound in assessment of (Yao et al.), 4
hypertension, systemic, effect of carotid sinus lumen enlargement on (Fadali and Walstad), 452
oxygen tension: significance in surgical patient (Overfield and Powers), 1
Arteriography, coronary, evaluation of surgical risk in peripheral vascular disease by: series of 100 cases (Tomatis, Fierens, and Verbrugge), 429
Artery bypass grafts, coronary, in treatment of coronary artery disease, experience with (Reul et al.), 586
carotid, protection, value of autogenous dermal graft for (Curutchet, Terz, and Lawrence), 876
hepatic, or portal vein, effects of acute ligation of: blood supply of experimental liver metastases (Ackerman, Lien, and Silverman), 636
profunda femoris, on the surgery of atherosclerosis (Martin et al.), 182
pulmonary, right–aorta anastomosis during total correction of tetralogy of Fallot, management of (Ebert, Gay, and Oldham), 231
subclavian, right, abberant, single cervical approach to (Orvald, Scheerer, and Jude), 227
Atherosclerosis of profunda femoris artery, on surgery of (Martin et al.), 182
Atresia, congenital esophageal: mercury bag stretching of upper pouch in patient without tracheoesophageal fistula (Thomasson), 661
esophageal, extremely rare types: two case reports of membranous atresia and multiple atresia of esophagus (Matsumoto et al.), 795

*January, pp. 1-156; February, pp. 157-314; March, pp. 315-476; April, pp. 477-644; May, pp. 645-794; June, pp. 795-946.

Atresia, esophageal—Cont'd
and tracheoesophageal fistula, surgical management of laryngotracheoesophageal cleft with (Donahoe and Hendren), 363
Azathioprine management and leukopenia in renal homotransplantation (Haesslein et al.), 598

B

Bacterial clearance in lung, model for (Dorn et al.), 414
Bile as gastric secretory stimulant (Nahrwold), 157
and pancreatic ducts, report of three unusual cases associated with: duplications of alimentary tract (Akers et al.), 817
salts producing stress ulcers during experimental shock (Hamza and DenBesten), 161
Biliary excretion of ampicillin in anesthetized dog: effect of serum ampicillin concentration, taurocholate infusion rate, biliary secretion pressure, and secretin infusion (Mandiola et al.), 664
secretion pressure, secretin infusion, taurocholate infusion rate, and serum ampicillin concentration, effect of: biliary excretion of ampicillin in anesthetized dog (Mandiola et al.), 664
Biology, human, on use of lathyrogens in (letter to editors) (Peacock and Madden), 922
Bladder, scan/kidney isotope intensity ratio, early detection of canine renal allograft rejection by reduction in (Hayes and Moore), 60
Blood, banked, effective filtration of (McNamara, Burran, and Suehiro), 594
cell, red, mobility and whole blood viscosity changes following the administration of intravenous fat (Coran and Horwitz), 459
collection, in vacuo: possible cause of fat emboli (Fadali and Walstad), 738
flow, arterial, pulmonary, in reimplanted lungs of dogs (Yanes, Rudy, and Edmunds), 576
mucosal, in antral and fundic pouches, effect of physiologic and supramaximal doses of pentagastrin on (Rudick et al.), 405
supply of experimental liver metastases: effects of acute ligation of hepatic artery or portal vein (Ackerman, Lien, and Silverman), 636
volume and red cell determinations using ^{51}RBC, effects of canine spleen on (Nelson and Swan), 215
Blood-borne particulate matter, effect of surgical trauma on clearance and localization of (Saba), 675
Bodies, foreign, from esophagus and nose with use of Foley catheter, removal of (Henry and Chamberlain), 918
Bone and bowel, complications of combat casualties with combined injuries of: personal experience with nineteen patients (Christy), 270
Bowel and bone, complications of combat casualties with combined injuries of: personal experience with nineteen patients (Christy), 270
small, multiple septa of: description of unusual case, with review of literature and consideration of etiology (Rittenhouse et al.), 371
Bradycardia, reflex, after tracheoesophageal fistula repair (Kenigsberg et al.), 125
Bronchospasm, irreversible, in Hodgkin's disease: operative death (Jewell, Furman, and Hasbrouck), 419
Burn toxic factor, purified, and its competitin (Rosenthal, Hawley, and Hakim), 527
Bypass, cardiopulmonary, changes in serum complement and immunoglobulins following (Parker et al.), 824
plasma insulin and glucose relationship during (Hewitt et al.), 905
sustained hypovolemia and extracellular fluid volume expansion following (Beattie et al.), 891
femoropopliteal, sequential: another approach to inadequate saphenous vein problem (DeLauentis and Friedmann), 400
grafts, artery, coronary, in treatment of coronary artery disease, experience with (Reul et al.), 586
long, without twisting, insertion of (Catchpole), 471
subclavian-subclavian, for correction of subclavian steal syndrome (Forestner et al.), 136
for subclavian steal syndrome (Finkelstein, Byer, and Rush), 142
ventricular, left, total, achieved by extracardiac cannulation, experimental studies of (Stansel and Tanae), 76

C

Calorie, high-, infusion therapy following surgery in low-birth-weight infants: metabolic problems encountered (Hays et al.), 834
Cancer, esophageal, early diagnosis of (Suzuki et al.), 99
mammary—the truth (editorial), (Butcher), 791
of pancreas and stomach: study in contrasts (editorial) (Stephenson), 307
Cannulation, extracardiac, experimental studies of total left ventricular bypass achieved by (Stansel and Tanae), 76
Carbohydrate and fat, metabolism of, during hemorrhagic shock in unanesthetized subhuman primate: changes in serum levels of free fatty acids, total lipids, insulin, and glucose (Coran et al.), 465
Carcinoma of main hepatic duct junction, prolonged palliation in (Terblanche, Saunders, and Louw), 720
thyroid, anaplastic, hormonal dependent: case report (Macgregor and Ham), 56
Cardiac arrest, effects of xanthine oxidase inhibition in (Parker and Smith), 339
function, canine, effect of prosthetic ventricular septum on (Seki, Tsakiris, and McGoon), 241
lymphatic obstruction, chronic, functional and pathologic changes in heart following (Ullal, Kluge, and Gerbode), 328
Cardiopulmonary bypass, changes in serum complement and immunoglobulins following (Parker et al.), 824
plasma insulin and glucose relationships during (Hewitt et al.), 905
sustained hypovolemia and extracellular fluid volume expansion following (Beattie et al.), 891

Carotid artery protection, value of autogenous dermal graft for (Curutchet, Terz, and Lawrence), 876
sinus lumen enlargement, effect on systemic arterial hypertension (Fadali and Walstad), 452
Catheter, Foley, removal of foreign bodies from esophagus and nose with use of (Henry and Chamberlain), 918
Cecal ulcer, bleeding: pathogenesis, angiographic diagnosis, and nonoperative control (Sutherland et al.), 290
Cell, blood, red, mobility and whole blood viscosity changes following administration of intravenous fat (Coran and Horwitz), 459
red, and blood volume determinations using ^{51}RBC, effects of canine spleen on (Nelson and Swan), 215
Cephalic secretion and peptic ulcer disease, role of distal gastrectomy, with and without vagotomy, in control of (Stempien, Lee, and Dagradi), 110
Cervical approach, single, to abberant right subclavian artery (Orvald, Scheerer, and Jude), 227
Chemical factors contributing to pulmonary damage in "smoke poisoning" (Zikria, Ferrer, and Floch), 704
and mechanical methods of opening occluded T tubes (Waddell and Taubman), 91
Cholecystectomies, 3,257, study of: mortality following gallbladder surgery (Boquist, Bergdahl, and Andersson), 616
Cholesterol dynamics following partial ileal bypass versus following partial ileal excision in rabbit (Schwartz et al.), 547
Circulation, adequacy of, tissue gas levels as index of: relation between ischemia and development of collateral circulation (delay phenomenon), (Myers, Cherry, and Milton), 15
coronary collateral, in pressure changes distal to acute coronary occlusion, role of (Selmonosky and Ellison), 283
Clearance, bacterial, in lung, model for (Dorn et al.), 414
rate and renal function, effects of stroma-free homoglobin solution on (Relihan and Litwin), 395
Cleft, laryngotracheoesophageal, with tracheoesophageal fistula and esophageal atresia, surgical management of (Donahoe and Hendren), 363
Clip, smooth Teflon, partial occlusion of inferior vena cava with: analysis of long-term results (Moretz et al.), 710
Collateral circulation, coronary, in pressure changes distal to acute coronary occlusion, role of (Selmonosky and Ellison), 283
development of (delay phenomenon), and ischemia, relation between: tissue gas levels as index of adequacy of circulation (Myers, Cherry, and Milton), 15
Colon, complete duplication of, and esophageal communication, extralobar pulmonary sequestration with (Flye and Izant), 744
short, associated with imperforate anus (Singh and Pathak), 781
Combat casualties with combined injuries of bone and bowel, complications of: personal experience with nineteen patients (Christy), 270
Common duct after inadvertent removal, nonoperative replacement of T tube in (Dorsey, Rowen, and Hepps), 97
Congenital esophageal atresia: mercury bag stretching of upper pouch in patient without tracheoesophageal fistula (Thomasson), 661
Coronary arteriography, evaluation of surgical risk in peripheral vascular disease by: series of 100 cases (Tomatis, Fierens, and Verbrugge), 429
artery bypass grafts in treatment of coronary artery disease, experience with (Reul et al.), 586
collateral circulation in pressure changes distal to acute coronary occlusion, role of (Selmonosky and Ellison), 283
^{51}Cr-labeled sensitized lymphocytes at allograft region, localization of: possible diagnostic test in organ transplantation (Goren, Berke, and Urca), 513
Cryptorchidism, ectopic, torsion infarction in: rare entity occurring most commonly with spastic neuromuscular disease (Phillips and Holmes), 335

D

Dermal graft, autogenous, for carotid artery protection, value of (Curutchet, Terz, and Lawrence), 876
Dextran, low molecular, and isophrenaline sulfate, effects of infusion on canine endotoxin shock (Kapur, Rao, and Sarangee), 507
70 and dextran 40 in postoperative animals, comparison of effects (Litwin), 295
Diagnosis, angiographic, pathogenesis, and nonoperative control: bleeding cecal ulcer (Sutherland et al.), 290
of early esophageal cancer (Suzuki et al.), 99
Disease, arterial, occlusive of lower extremities, comparative study of strain-gauge plethysmography and Doppler ultrasound in assessment of (Yao et al.), 4
coronary artery, experience with coronary artery bypass grafts in treatment of (Reul et al.), 586
Hirschsprung's, simplified endorectal pull-through operation for treatment of (Satomura et al.), 345
Hodgkin's, irreversible bronchospasm in: operative death (Jewell, Furman, and Hasbrouck), 419
laparotomy for: surgical observations (Mitchell et al.), 694
neoplastic, hypercalcemic crisis in: management with mithramycin (Elias and Evans), 631
neuromuscular, spastic, rare entity occurring most commonly with: torsion infarction in ectopic cryptorchidism (Phillips and Holmes), 335
peptic ulcer, and cephalic secretion, role of distal gastrectomy, with and without vagotomy, in control of (Stempien, Lee, and Dagradi), 110

Disease—Cont'd
thromboembolic, importance of bilateral ovarian vein ligation in control of (Grollman and Marx), 352
vascular, peripheral, by coronary arteriography, evaluation of surgical risk in: series of 100 cases (Tomatis, Fierens, and Verbrugge), 429
Division and ligation, simultaneous, of vessels, new instrument for, with note on hemostasis by geatin sponge–staple combination (Ravitch, Hirsch, and Noiles), 720
Donors, pediatric, into adult patients, en bloc transplantation of both kidneys from (Meakins, Smith, and Alexander), 72
Doppler ultrasound and strain-gauge plethysmography in assessment of occlusive arterial disease of lower extremities, comparative study of (Yao et al.), 4
Duct(s), bile and pancreatic, report of three unusual cases associated with: duplications of alimentary tract (Agers et al.), 817
common, after inadvertent removal, nonoperative replacement of T tube in (Dorsey, Rowen, and Hepps), 97
junction, main hepatic, prolonged palliation in carcinoma of (Terblanche, Saunders, and Louw), 720
Duplications of alimentary tract: report of three unusual cases associated with bile and pancreatic ducts (Akers et al.), 817
of colon, complete, and esophageal communication, extralobar pulmonary sequestration with (Flye and Izant), 744
Dural venous sinuses, management of combat wounds of (Kapp and Gielchinsky), 913

E

Economic motivation and medical school faculty (letter to editors) (Rosenblum), 152: Reply (Maloney), 154
Ectopic cryptorchidism, torsion infarction in: rare entity occurring most commonly with spastic neuromuscular disease (Phillips and Holmes), 335
Edema, pulmonary, interstitial, produced by venous hypertension or hemodilution in perfused lungs, comparative effects of (Greenfield et al.), 857
Education, medical, continuing, and self-assessment (editorial), (Rosato), 642
Emboli, fat, possible cause of: in vacuo blood collection (Fadali and Walstad), 738
Empyema, post-pneumonectomy (Adler and Plaut), 210
Endorectal pull-through operation, simplified, for treatment of Hirschsprung's disease (Satomura et al.), 345
Endotoxin shock, canine, effects of infusion of isoprenaline sulfate and low molecular dextran on (Kapur, Rao, and Sarangee), 507
Enteritis, tuberculous, with perforation and abscess formation in childhood (Porter, Snowe, and Silver), 254
Eponymic fractures: Robert Jones and Jones's fracture (Peltier), 522
Erythrocytes, fibrin, and platelets in various organs following thrombin infusion, distribution of: experimental study in dogs with and without antifibrinolytic therapy (Bergentz, Ljungqvist, and Lewis), 190
in rat liver perfusion, fluorocarbon sonicated as substitute for (Brown and Hardison), 388
Esophageal atresia, congenital: mercury bag stretching of upper pouch in patient without tracheoesophageal fistula (Thomasson), 661
extremely rare types: two case reports of membranous atresia and multiple atresia of esophagus (Matsumoto et al.), 795
and tracheoesophageal fistula, surgical management of laryngotracheoesophageal cleft with (Donahoe and Hendren), 363
cancer, early, diagnosis of (Suzuki et al.), 99
communication and complete duplication of colon, extralobar pulmonary sequestration with (Flye and Izant), 744
hiatus hernia and mental retardation: life-threatening postoperative metabolic acidosis and potassium deficiency linked with new inborn error of nitrogen metabolism (Kluge et al.), 104
Esophagus and nose with use of Foley catheter, removal of foreign bodies from (Henry and Chamberlain), 918
two case reports of membranous atresia and multiple atresia of: extremely rare types of esophageal atresia (Matsumoto et al.), 795
Extralobar pulmonary sequestration with esophageal communication and complete duplication of colon (Flye and Izant), 744
Extravascular water, pulmonary, measurement of (Lindsay and Humphrey), 650
Extremity, upper, sympathectomy, per axillary: technique reviewed and clinical experience (Jochimsen and Hartfall), 686

F

Faculty, medical school, and economic motivation (letter to editors) (Rosenblum), 152; Reply (Maloney), 154
Fallot, tetralogy of, management of aorta–right pulmonary artery anastomosis during total correction of (Ebert, Gay, and Oldham), 231
Fascia Lata Heart Valves, First International Roundtable on (Trimble), 10
Fat and carbohydrate, metabolism of, during hemorrhagic shock in unanesthetized subhuman primate: changes in serum levels of free fatty acids, total lipids, insulin, and glucose (Coran et al.), 465
emboli, possible cause of: in vacuo blood collection (Fadali and Walstad), 738
intravenous, red blood cell mobility and whole blood viscosity changes following the administration of (Coran and Horwitz), 465
Fatty acids, free, total lipids, insulin, and glucose, changes in serum levels of: metabolism of fat and carbohydrate during hemorrhagic shock in unanesthetized subhuman primate (Coran et al.), 465

Femoropopliteal–autogenous vein bypass graft, factors influencing patency of: analysis of 74 cases (Koontz and Stansel), 753

Femoropopliteal bypasses, sequential: another approach to inadequate saphenous vein problem (DeLaurentis and Friedmann), 400

Fibrin, erythrocytes, and platelets in various organs following thrombin infusion, distribution of: experimental study in dogs with and without antifibrinolytic therapy (Bergentz, Ljungqvist, and Lewis), 190

Fibrosarcoma, methylcholanthrene, with use of neuraminidase, immunospecific regression of: intratumor injections of neuraminidase (Simmons and Rios), 556

Filtration, effective, of banked blood (McNamara, Burran, and Suehiro), 594

Fistula repair, tracheoesophageal, reflex bradycardia after (Kenigsberg et al.), 125

tracheoesophageal, and esophageal atresia, surgical management of laryngotracheoesophageal cleft with (Donahoe and Hendren), 363

mercury bag stretching of upper pouch in patient without: congenital esophageal atresia (Thomasson), 661

Flow, blood, arterial, pulmonary, in reimplanted lungs of dogs (Yanes, Rudy, and Edmunds), 576

Fluid, extracellular, volume expansion and sustained hypovolemia following cardiopulmonary bypass (Beattie et al.), 891

infusion, controlled intravenous, double-check device without moving parts for (McNamara and Rosenberg), 225

Fluorocarbon sonicated as substitute for erythrocytes in rat liver perfusion (Brown and Hardison), 388

Foley catheter, removal of foreign bodies from esophagus and nose with use of (Henry and Chamberlain), 918

Fractures, eponymic: Robert Jones and Jones's fracture (Peltier), 522

Jones's, and Robert Jones: eponymic fractures (Peltier), 522

Function, cardiac, canine, effect of prosthetic ventricular septum on (Seki, Tsakiris, and McGoon), 241

Fundic and antral pouches, effect of physiologic and supramaximal doses of pentagastrin on mucosal blood flow in (Rudick et al.), 405

G

Gallbladder surgery, mortality following: study of 3,257 cholecystectomies (Boquist, Bergdahl, and Andersson), 616

Gallstone formation, increased, after complete vagotomy, clinical and biochemical evidence of (Tompkins et al.), 196

Gas levels, tissue, as index of adequacy of circulation: relation between ischemia and development of collateral circulation (delay phenomenon) (Myers, Cherry, and Milton), 15

Gastrectomy, distal, with and without vagotomy, role in control of cephalic secretion and peptic ulcer disease (Stempien, Lee, and Dagradi), 110

Gastric inhibitors of intestinal origin: comparison of their inhibitory mechanism (Itoh, Lucien, and Schally), 849

operations, additional experience with elimination of routine nasogastric suction following (Herrington), 132

secretory stimulant, bile as (Nahrwold), 157

Gastrointestinal tract, upper, leiomyomas of (Kavlie and White), 842

Gastrostomy, permanent, simple technique for (Moss), 369

Gelatin sponge–staple combination, hemostasis by, note on: new instrument for simultaneous ligation and division of vessels (Ravitch, Hirsch, and Noiles), 732

Glucose, hypertonic, in jejunum, mechanisms of local vasodilation with (Chou et al.), 380

insulin, free fatty acids, and total lipids, changes in serum levels of: metabolism of fat and carbohydrate during hemorrhagic syock in unanesthetized subhuman primate (Coran et al.), 465

and insulin, plasma, relationships during cardiopulmonary bypass (Hewitt et al.), 905

Grafts, bypass, artery, coronary, in treatment of coronary artery disease, experience with (Reul et al.), 586

long, without twisting, insertion of (Catchpole), 471

dermal, autogenous, for carotid artery protection, value of (Curutchet, Terz, and Lawrence), 876

H

Hallux valgus, surgical correction of (Soren), 44

Heart allograft, rat, survival by thiamphenicol, prolongation of (Ono et al.), 258

functional and pathologic changes following chronic cardiac lymphatic obstruction (Ullal, Kluge, and Gerbode), 328

Valves, Fascia Lata, First International Roundtable on (Trimble), 10

Hemangiomas, large, in infants and children, prednisone therapy in management of (Brown, Neerhout, and Fonkalsrud), 168

Hemodilution or venous hypertension in perfused lungs, comparative effects of interstitial pulmonary edema produced by (Greenfield et al.), 857

Hemoglobin solution, stroma-free, effects on clearance rate and renal function (Relihan and Litwin), 395

Hemolytic-uremic syndrome, renal homotransplantation in infants and children with (Cerilli, Nelsen, and Dorfmann), 66

Hemorrhage, effects in fetal and newborn lambs (Rodgers, Staroscik, and Reis), 51

transfusion, and vagotomy in restrained rat, effect of: studies on pathogenesis of "stress ulcer" (Ritchie, Roth, and Fischer), 445

Hemorrhagic shock in dogs, physiological responses to administration of cold, room temperature, and warm balanced salt solutions in (Copping, Mather, and Winkler), 206

Hemorrhagic shock—Cont'd
liver acid phosphatase as measure of hepatocyte resistance to (Clermont, Williams, and Adams), 868
in unanesthetized subhuman primate, metabolism of fat and carbohydrate during: changes in serum levels of free fatty acids, total lipids, insulin, and glucose (Coran et al.), 465
Hemostasis by gelatin sponge–staple combination, note on: new instrument for simultaneous ligation and division of vessels (Ravitch, Hirsch, and Noiles), 732
rapid, with automatic stapler: transection of rectus abdominus (Moss), 246
Hepatic artery or portal vein, effects of acute ligation of: blood supply of experimental liver metastases (Ackerman, Lien, and Silverman), 636
coma, acute, treatment by ex vivo baboon and human liver perfusions (Abouna et al.), 537
duct junction, main, prolonged palliation in carcinoma of (Terblanche, Saunders, and Louw), 720
Hepatocyte resistance to hemorrhagic shock, liver acid phosphatase as measure of (Clermont, Williams, and Adams), 868
Hernia, hiatus, esophageal, and mental retardation: life-threatening postoperative metabolic acidosis and potassium deficiency linked with new inborn error of nitrogen metabolism (Kluge et al.), 104
inguinal, contralateral, in infants, evaluation of transperitoneal probing for detection of (Levy), 412
Hiatus hernia, esophageal, and mental retardation: life-threatening postoperative metabolic acidosis and potassium deficiency linked with new inborn error of nitrogen metabolism (Kluge et al.), 104
Hirschsprung's disease, simplified endorectal pull-through operation for treatment of (Satomura et al.), 345
Histocompatibility matching according to lymphocyte types on orthotopic liver transplantation in dogs, influence of (Chandler et al.), 807
Hodgkin's disease, irreversible bronchospasm in: operative death (Jewell, Furman, and Hasbrouck), 419
laparotomy for: surgical observations (Mitchell et al.), 694
Homotransplantation, renal, in infants and children with hemolytic-uremic syndrome (Cerilli, Nelsen, and Dorfmann), 66
leukopenia and azathioprine management in (Haesslein et al.), 598
Hormonal dependent anaplastic thyroid carcinoma: case report (Macgregor and Ham), 56
Hospital salubrity, surgical cleanliness, and surgical statistics, historically considered (Wangensteen, Wangensteen, and Klinger), 477
Hypercalcemic crisis in neoplastic diseases: management with mithramycin (Elias and Evans), 631
Hyperpyrexia, malignant (editorial) (Wyant), 473
Hypertension, arterial, systemic, effect of carotid sinus lumen enlargement on (Fadali and Walstad), 452
Hypertension—Cont'd
venous, or hemodilution in perfused lungs, comparative effects of interstitial pulmonary edema produced by (Greenfield et al.), 857
Hypertonic glucose in jejunum, mechanisms of local vasodilation with (Chou et al.), 380
Hypovolemia, sustained, and extracellular fluid volume expansion following (Beattie et al.), 891

I

Ileal bypass, partial, versus partial ileal excision in rabbit, cholesterol dynamics following (Schwartz et al.), 547
excision, partial, versus partial ileal bypass in rabbit, cholesterol dynamics following (Schwartz et al.), 547
Ileus, analysis of, occurrence of air fluid levels in normal patients and their role in (Gammill and Nice), 771
treatment of (letter to editors) (Catchpole), 313
Immune responses in mouse, effect of heterologous nonthymic antilymphocyte serum on (Miller et al.), 881
Immunobiological diagnosis of rejection in dogs with renal allografts (Häyry et al.), 494
Immunoglobulins and serum complement following cardiopulmonary bypass, changes in (Parker et al.), 824
Immunospecific regression of methylcholanthrene fibrosarcoma with use of neuraminidase: intratumor injection of neuraminidase (Simmons and Rios), 556
Infarction, torsion, in ectopic cryptorchidism: rare entity occurring most commonly with spastic neuromuscular disease (Phillips and Holmes), 335
Infusion, controlled intravenous fluid, double-check valve device without moving parts for (McNamara and Rosenberg), 225
high-calorie, therapy following surgery in low-birth-weight infants: metabolic problems encountered (Hays et al.), 834
rate, taurocholate, biliary secretion pressure, secretin infusion, and serum ampicillin concentration, effects of: biliary excretion of ampicillin in anesthetized dog (Mandiola et al.), 664
Inguinal hernias, contralateral, in infants, evaluation of transperitoneal probing for detection (Levy), 412
Inhibitors, gastric, of intestinal origin: comparison of their inhibitory mechanism (Itoh, Lucien, and Schally), 849
Injections, intratumor, of neuraminidase: immunospecific regression of methylcholanthrene fibrosarcoma with use of neuraminidase (Simmons and Rios), 556
Injuries, combined, of bone and bowel, combat casualties with, complications of: personal experience with nineteen patients (Christy), 270
recurrent laryngeal nerve, repair of (Peters and Gardner), 865
Instrument, new, for simultaneous ligation and division of vessels, with note on hemostasis by gelatin sponge–staple combination (Ravitch, Hirsch, and Noiles), 732

Insulin, glucose, free fatty acids, and total lipids, changes in serum levels of: metabolism of fat and carbohydrate during hemorrhagic shock in unanesthetized subhuman primate (Coran et al.), 465
and glucose, plasma, relationships during cardiopulmonary bypass (Hewitt et al.), 905
Intestinal origin, gastric inhibitors of: comparison of their inhibitory mechanism (Itoh, Lucien, and Schally), 849
Intestine, small, damaged, passive absorption of low-molecular compound (vitamin B_{12}) by: method of quantitative studies (Frauchiger, Kummer, and Lundsgaard-Hansen), 357
villous adenomas of (Steinberg and Shieber), 423
Intratumor injections of neuraminidase: immunospecific regression of methylcholanthrene fibrosarcoma with use of neuraminidase (Simmons and Rios), 556
Intravenous fluid infusion, controlled, double-check valve device without moving parts for (McNamara and Rosenberg), 225
Ischemia and development of collateral circulation (delay phenomonon), relation between: tissue gas levels as index of adequacy of circulation (Myers, Cherry, and Milton), 15
renal, effect of allopurinol in (Vasko, DeWall, and Riley), 787
Isoprenaline sulfate and low molecular dextran, effects of infusion on canine endotoxin shock (Kapur, Rao, and Sarangee), 507
Isotope intensity ratio, scan bladder/kidney, early detection of canine renal allograft rejection by reduction in (Hayes and Moore), 60

J

Jejunum, mechanims of local vasodilation with hypertonic glucose in (Chou et al.), 380
Jones, Robert, and Jones's fracture: eponymic fractures (Peltier), 522
Jones's fracture and Robert Jones: eponymic fractures (Peltier), 522
Junction, main hepatic duct, prolonged palliation in carcinoma of (Terblanche, Saunders, and Louw), 720

K

Ketosteroids, 17-, effect of surgical trauma on excretion and conjugation pattern of (Wise, Margraf, and Ballinger), 625
Kidney(s), both, en bloc transplantation from pediatric donors into adult patients (Meakins, Smith, and Alexander), 72
canine, preservation, three-day (Abouna et al.), 436
Kidney/bladder scan isotope intensity ratio, early detection of canine renal allograft rejection by reduction in (Hayes and Moore), 60
Korotkoff sounds, technology, and modern vascular surgeon (editorial) (Clark), 148

L

Laboratory ultilization on university surgical service (Liptzin and Williams), 247
Laparotomy for Hodgkin's disease: surgical observations (Mitchell et al.), 694
Laryngeal nerve injuries, recurrent, repair of (Peters and Gardner), 865
Laryngotracheoesophageal cleft with tracheoesophageal fistula and esophageal atresia, surgical management of (Donahoe and Hendren), 363
Lathyrogens, caution against use of (editorial) (Barrow and Simpson), 309
in human biology, on use of (letter to editors) (Peacock and Madden), 922
Lavage, peritoneal, diagnostic, in blunt abdominal trauma: indications and results (Perry and Strate), 898
Leale, Charles Augustus: Lincoln's young physician (Mulliken), 760
Leiomyomas of upper gastrointestinal tract (Kavlie and White), 812
Leukopenia and azathioprine management in renal homotransplantation (Haesslein et al.), 598
Ligation, acute, of hepatic artery or portal vein, effects of: blood supply of experimental liver metastases (Ackerman, Lien, and Silverman), 636
and division, simultaneous, of vessels, new instrument for, with note on hemostasis by gelatin sponge–staple combination (Ravitch, Hirsch, and Noiles), 732
vein, ovarian, bilateral, in control of thromboembolic disease, importance of (Grollman and Marx), 352
Lighting, specific, for surgery (Ersek and Lillehei), 605
Lipids, total, free fatty acids, insulin, and glucose, changes in serum levels of: metabolism of fat and carbohydrate during hemorrhagic shock in unanesthetized subhuman primate (Coran et al.), 465
Liver acid phosphatase as measure of hepatocyte resistance to hemorrhagic shock (Clermont, Williams, and Adams), 868
metastases, experimental, blood supply of: effects of acute ligation of hepatic artery or portal vein (Ackerman, Lien, and Silverman), 636
perfusions, ex vivo baboon and human, treatment of acute hepatic coma by (Abouna et al.), 537
rat, fluorocarbon sonicated as substitute for erythrocytes in (Brown and Hardison), 388
transplantation, orthotopic, in dogs, influence of histocompatibility matching according to lymphocyte types on (Chandler et al.), 807
Loop, afferent, syndrome, use of conversion and interposition operations in treatment of (Jaffe and Williams), 235
Lumbocostovertebral syndrome: single somatic defect (Touloukian), 174
Lumen, sinus, carotid, enlargement, effect on systemic arterial hypertension (Fadali and Walstad), 452
Lung(s) allograft, transplanted, heterotopic, as auxiliary oxygenator (Blank, Rodewald, and Linberg), 902
model for bacterial clearance in (Dorn et al.), 414
perfused, comparative effects of interstitial pulmonary edema produced by venous hypertension or hemodilution in (Greenfield et al.), 857

Lymphatic obstruction, chronic cardiac, functional and pathologic changes in heart following (Ullal, Kluge, and Gerbode), 328
Lymphocytes, ^{51}Cr-labeled sensitized, at allograft region, localization of: possible diagnostic test in organ transplantation (Goren, Berke, and Urca), 513
types on orthotopic liver transplantation in dogs, influence of histocompatibility matching according to (Chandler et al.), 807

M

Mammary cancer—the truth (editorial), (Butcher), 791
Mechanical and chemical methods of opening occluded T tubes (Waddell and Taubman), 91
Meckel's diverticulum scan, false positive (letter to editors) (Chaudhuri, Chaudhuri, and Christie), 313
Medical education, continuing, and self-assessment (editorial) (Rosato), 642
school faculty and economic motivation (letter to editors) (Rosenblum), 152; Reply (Maloney), 154
learning in: approach to student responsibility (Coppola and Gonnella), 645
Membrane oxygenator, 0.25 M.^{2} Travenol infant, analysis of operating characteristics of (Boyd, Moran, and Clark), 262
Mental retardation and esophageal hiatus hernia: life-threatening postoperative metabolic acidosis and potassium deficiency linked with new inborn error of nitrogen metabolism (Kluge et al.), 104
Mercury bag stretching of upper pouch in patient without tracheoesophageal fistula: congenital esophageal atresia (Thomasson), 661
Metabolic problems encountered: high-calorie infusion therapy following surgery in low-birth-weight infants (Hays et al.), 834
Metabolism of fat and carbohydrate during hemorrhagic shock in unanesthetized subhuman primate: changes in serum levels of free fatty acids, total lipids, insulin, and glucose (Coran et al.), 465
nitrogen, life-threatening postoperative metabolic acidosis and potassium deficiency linked with new inborn error of: esophageal hiatus hernia and mental retardation (Kluge et al.), 104
Methylcholanthrene fibrosarcoma with use of neuraminidase, immunospecific regression of: intratumor injections of neuraminidase (Simmons and Rios), 556
Microvascular surgery, new needle for (Acland), 130
Mithramycin, management with: hypercalcemic crisis in neoplastic diseases (Elias and Evans), 631
Molecular, low-, compound (vitamin B_{12}) by damaged small intestine, passive absorption of: method for quantitative studies (Frauchiger, Kummer, and Lundsgaard-Hansen), 357
Mucosal blood flow in antral and fundic pouches, effect of physiologic and supramaximal doses of pentagastrin on (Rudick et al.), 405

N

Nasogastric suction, routine, following gastric operations, additional experience with elimination of (Herrington), 132
Needle, new, for microvascular surgery (Acland), 130
Neoplastic disease, hypercalcemic crisis in: management with mithramycin (Elias and Evans), 631
Nerve entrapment syndrome, cutaneous, abdominal (Applegate), 118
laryngeal, injuries, recurrent, repair of (Peters and Gardner), 865
Neuraminidase, immunospecific regression of methylcholanthrene fibrosarcoma with use of: intratumor injections of neuraminidase (Simmons and Rios), 556
Neuromuscular disease, spastic, rare entity occurring most commonly with: torsion infarction in ectopic cryptorchidism (Phillips and Holmes), 335
Nitrogen metabolism, life-threatening postoperative metabolic acidosis and potassium deficiency linked with new inborn error of: esophageal hiatus hernia and mental retardation (Kluge et al.), 104
Nose and esophagus, removal of foreign bodies with use of Foley catheter from (Henry and Chamberlain), 918

O

Obstruction, lymphatic, cardiac, chronic, functional and pathologic changes in heart following (Ullal, Kluge, and Gerbode), 328
Occlusion, coronary, acute, role of coronary collateral circulation in pressure changes distal to (Selmonosky and Ellison), 283
partial, of inferior vena cava with smooth Teflon clip: analysis of long-term results (Moretz et al.), 710
Occlusive arterial disease of lower extremities, comparative study of strain-gauge plethysmography and Doppler ultrasound in assessment of (Yao et al.), 4
Operation(s), conversion and interposition, use in treatment of afferent loop syndrome (Jaffe and Williams), 235
endorectal pull-through, simplified, for treatment of Hirschsprung's disease (Satomura et al.), 345
gastric, additional experience with elimination of routine nasogastic suction following (Herrington), 132
Organ transplantation, possible diagnostic test in: localization of ^{51}Cr-labeled sensitized lymphocytes at allograft region (Goren, Berke, and Urca), 513
Orthotopic liver transplantation in dogs, influence of histocompatibility matching according to lymphocyte types on (Chandler et al.), 807
Ovarian vein ligation, bilateral, in control of thromboembolic disease, importance of (Grollman and Marx), 352
Oxygen tension, arterial: signficance in surgical patient (Overfield and Powers), 1
era of (editorial) (Ebert), 146
and wound healing (editorial) (Chase), 150

Oxygen—Cont'd
wound, measurement with implanted Silastic tube (Niinikoski and Hunt), 22
Oxygenator, auxiliary, heterotopic transplanted lung allograft as (Blank, Rodewald, and Linberg), 902
membrane, 0.25 M.² Travenol infant, analysis of operating characteristics of (Boyd, Moran, and Clark), 262

P

Palliation, prolonged in carcinoma of main hepatic duct junction, (Terblanche, Saunders, and Louw), 720
Pancreas and stomach, cancer in: study in contrasts (editorial) (Stephenson), 307
Pancreatic and bile ducts, report of three unusual cases associated with: duplications of alimentary tract (Akers et al.), 817
trauma: review (Northrup and Simmons), 27
Pediatric donors into adult patients, en bloc transplantation of both kidneys from (Meakins, Smith, and Alexander), 72
Pentagastrin doses, physiologic and supramaximal, effect on mucosal blood flow in antral and fundic pouches (Rudick et al.), 405
Peptic ulcer disease and cephalic secretion, role of distal gastrectomy, with and without vagotomy, in control of (Stempien, Lee, and Dagradi), 110
Perforation and abscess formation in childhood, tuberculous enteritis with (Porter, Snowe, and Silver), 254
Perfusions, liver, human and baboon, ex vivo, treatment of acute hepatic coma by (Abouna et al.), 537
rat, fluorocarbon sonicated as substitute for erythrocytes in (Brown and Hardison), 388
Peritoneal lavage, diagnostic, in blunt abdominal trauma: indication and results (Perry and Strate), 898
Peritonitis, starch granulomatous (Holmes and Eggleston), 85
Phenomenon, delay (development of collateral circulation) and ischemia, relation between: tissue gas levels as index of adequacy of circulation (Myers, Cherry, and Milton), 15
Phosphatase, acid, liver, as measure of hepatocyte resistance to hemorrhagic shock (Clermont, Williams, and Adams), 868
Plasma insulin and glucose relationships during cardiopulmonary bypass (Hewitt et al.), 905
Platelets, fibrin, and erythrocytes in various organs following thrombin infusion, distribution of: experimental study in dogs with and without antifibrinolytic therapy (Bergentz, Ljungqvist, and Lewis), 190
Plethysmography, strain-gauge, and Doppler ultrasound in assessment of occlusive arterial disease of lower extremities, comparative study of (Yao et al.), 4
Pneumonectomy, post-, empyema (Adler and Plaut), 210
"Poisoning, smoke," chemical factors contributing to pulmonary damage in (Zikria, Ferrer, and Floch), 704
Portacaval anastomosis, aneurysm of inferior vena cava after (Conn and Ramsby), 828
Portacaval—Cont'd
transposition, pressor responses in (Valcin et al.), 201
Portal vein or hepatic artery, effects of acute ligation of: blood supply of experimental liver metastases (Ackerman, Lien, and Silverman), 636
Potassium deficiency and metabolic acidosis, life-threatening, postoperative, linked with new inborn error of nitrogen metabolism: esophageal hiatus hernia and mental retardation (Kluge et al.), 104
Pouches, antral and fundic, effect of physiologic and supramaximal doses of pentagastrin on mucosal blood flow in (Rudick et al.), 405
Practice, community, surgical work loads in (Hughes et al.), 315
Prednisone therapy in management of large hemangiomas in infants and children (Brown, Neerhout, and Fonkalsrud), 168
Preservation, kidney, canine, three-day (Abouna et al.), 436
Pressor responses in portacaval transposition (Valcin et al.), 201
Pressure changes distal to acute coronary occlusion, role of coronary collateral circulation in (Selmonosky and Ellison), 283
Probing, transperitoneal, for detection of contralateral inguinal hernias in infants, evaluation of (Levy), 412
Profunda femoris artery, on surgery of atherosclerosis of (Martin et al.), 182
Prosthesis reinforcement, vascular, technique of (letter to editors) (Robicsek), 924; Reply (Sapirstein), 924
Prosthetic ventricular septum, effect on canine cardiac function (Seki, Tsakiris, and McGoon), 241
Pulmonary arterial blood flow in reimplanted lungs of dogs (Yanes, Rudy, and Edmunds), 576
artery, right–aorta anastomosis during total correction of tetralogy of Fallot, management of (Ebert, Gay, and Oldham), 231
damage in "smoke poisoning," chemical factors contributing to (Zikria, Ferrer, and Floch), 704
edema, interstitial, produced by venous hypertension or hemodilution in perfused lungs, comparative effects of (Greenfield et al.), 857
extravascular water, measurement of (Lindsay and Humphrey), 650
sequestration, extralobar, with esophageal communication and complete duplication of colon (Flye and Izant), 744

R

Radiological approach, rational, to surgical correction of anorectal anomalies (Cremin, Cywes, and Louw), 800
Rectus abdominus, transection of: rapid hemostasis with automatic stapler (Moss), 246
Rejection, canine renal allograft, early detection by reduction in scan bladder/kidney isotope intensity ratio (Hayes and Moore), 60
in dogs with renal allografts, immunobiological diagnosis of (Häyry et al.), 494

Removal of foreign bodies from esophagus and nose with use of Foley catheter (Henry and Chamberlain), 918
Renal allograft, canine, rejection, early detection by reduction in scan bladder/kidney isotope intensity ratio (Hayes and Moore), 60
immunobiological diagnosis of rejection in dogs with (Häyry et al.), 494
function and clearance rate, effects of stroma-free hemoglobin solution on (Relihan and Litwin), 395
homotransplantation in infants and children with hemolytic-uremic syndrome (Cerilli, Nelsen, and Dorfmann), 66
leukopenia and azathioprine management in (Haesslein et al.), 598
ischemia, effect of allopurinol in (Vasko, DeWall, and Riley), 787
Retardation, mental, and esophageal hiatus hernia: life-threatening postoperative metabolic acidosis and potassium deficiency linked with new inborn error of nitrogen metabolism (Kluge et al.), 104

S

Salt(s), bile, producing stress ulcers during experimental shock (Hamza and DenBesten), 161
solutions, cold, room temperature, and warm balanced, in hemorrhagic shock in dogs, physiological responses to administration of (Copping, Mather, and Winkler), 206
Saphenous vein, inadequate, problem, another approach to: sequential femoropopliteal bypasses (DeLaurentis and Friedmann), 400
Scan bladder/kidney isotope intensity ratio, early detection of canine renal allograft rejection by reduction in (Hayes and Moore), 60
Meckel's diverticulum, false positive (letter to editors, (Chaudhuri, Chaudhuri, and Christie), 313
School, medical, faculty and economic motivation (letter to editors) (Rosenblum), 152; Reply (Maloney), 154
Secretin infusion, serum ampicillin concentration, taurocholate infusion rate, and biliary secretion pressure, effect of: biliary excretion of ampicillin in anesthetized dog (Mandiola et al.), 664
Secretion, cephalic, and peptic ulcer disease, role of distal gastrectomy, with and without vagotomy, in control of (Stempien, Lee, and Dagradi), 110
Septa, multiple, of small bowel: description of unusual case with review of literature and consideration of etiology (Rittenhouse et al.), 371
Septum, ventricular, prosthetic, effect on canine cardiac function (Seki, Tsakiris, and McGoon), 241
Sequestration, extralobar pulmonary, with esophageal communication and complete duplication of colon (Flye and Izant), 744
Serum ampicillin concentration, taurocholate infusion rate, biliary secretion pressure, and secretin infusion, effect of: biliary excretion of ampicillin in anesthetized dog (Mandiola et al.), 664
Serum—Cont'd
antilymphocyte, nonthymic, heterologous, on immune responses in mouse, effect of (Miller et al.), 881
complement and immunoglobulins following cardiopulmonary bypass, changes in (Parker et al.), 824
levels of free fatty acids, total lipids, insulin, and glucose, changes in: metabolism of fat and carbohydrate during hemorrhagic shock in unanesthetized subhuman primate (Coran et al.), 465
Service, university surgical, laboratory utilization on (Liptzin and Williams), 247
Shock, endotoxin, canine, effects of infusion of isoprenaline sulfate and low molecular dextran on (Kapur, Rao, and Sarangee), 507
experimental, bile salts producing stress ulcers during (Hamza and DenBesten), 161
hemorrhagic, in dogs, physiological responses to administration of cold, room temperature, and warm balanced salt solutions in (Copping, Mather, and Winkler), 206
liver acid phosphatase as measure of hepatocyte resistance to (Clermont, Williams, and Adams, 868
in unanesthetized subhuman primate, metabolism of fat and carbohydrate during changes in serum levels of free fatty acids, total lipids, insulin, and glucose (Coran et al.), 465
Silastic tube, implanted, measurement of wound oxygen with (Niinikoski and Hunt), 22
Sinus lumen, carotid, enlargement, effect on systemic arterial hypertension (Fadali and Walstad), 454
venous, dural, management of combat wounds of (Kapp and Gielchinsky), 913
Solutions, salt, cold, room temperature, and warm balanced, in hemorrhagic shock in dogs, physiological responses to administration of (Copping, Mather, and Winkler), 206
Spastic neuromuscular disease, rare entity occurring most commonly with: torsion infarction in ectopic cryptorchidism (Phillips and Holmes), 335
Sphincteroplasty (not sphincterotomy), reappraisal of (Jones and Smith), 565
Spleen, canine, effects on red cell and blood volume determinations using ^{51}RBC (Nelson and Swan), 215
Sponge, gelatin–staple combination, hemostasis by, note on: new instrument for simultaneous ligation and division of vessels (Ravitch, Hirsch, and Noiles), 732
Staple–gelatin sponge combination, hemostasis by, note on: new instrument for simultaneous ligation and division of vessels (Ravitch, Hirsch, and Noiles), 732
Stapler, automatic, rapid hemostasis with: transection of rectus abdominus (Moss), 246
Starch granulomatous peritonitis (Holmes and Eggleston), 85
Stomach and pancreas, cancer in: study in contrasts (editorial) (Stephenson), 307
Strain-gauge plethysmography and Doppler ultrasound in assessment of occlusive arterial disease of lower extremities, comparative study of (Yao et al.), 4

"Stress ulcer," studies on pathogenesis of: effect of hemorrhage, transfusion, and vagotomy in restrained rat (Ritchie, Roth, and Fischer), 445
Student responsibility, approach to: learning in medical school (Coppola and Gonnella), 645
Subclavian artery, right, aberrant, single cervical approach to (Orvald, Scheerer, and Jude), 227
Subclavian-subclavian bypass for correction of subclavian steal syndrome (Forestner et al.), 136
for subclavian steal syndrome (Finkelstein, Byer, and Rush), 142
Suction, nasogastric, routine, following gastric operations, additional experience with elimination of (Herrington), 132
Surgeon, vascular, modern, technology, and Korotkoff sounds (editorial) (Clark), 148
Surgery of atherosclerosis of profunda femoris artery, on (Martin et al.), 182
gallbladder, mortality following: study of 3,257 cholecystectomies (Boquist, Bergdahl, and Andersson), 616
in low-birth-weight infants, high-calorie infusion therapy following surgery in: metabolic problems encountered (Hays et al.), 834
microvascular, new needle for (Acland), 130
specific lighting for (Ersek and Lillehei), 605
Surgical cleanliness, hospital salubrity, and surgical statistics, historically considered (Wangensteen, Wangensteen, and Klinger), 477
correction of anorectal anomalies, rational radiological approach to (Cremin, Cywes, and Louw), 800
of hallux valgus (Soren), 44
management of laryngotracheoesophageal cleft with tracheoesophageal fistula and esophageal atresia (Donahoe and Hendren), 363
risk in peripheral vascular disease by coronary arteriography: series of 100 cases (Tomatis, Fierens, and Verbrugge), 429
service, university, laboratory utilization on (Liptzin and Williams), 247
statistics, surgical cleanliness, and hospital salubrity, historically considered (Wangensteen, Wangensteen, and Klinger), 477
trauma on clearance and localization of blood-borne particulate matter, effect of (Saba), 675
effect on excretion and conjugation pattern of 17-ketosteroids (Wise, Margraf, and Ballinger), 625
work loads (editorial) (Chase), 475
in community practice (Hughes et al.), 315
Sympathectomy, per axillary upper extremity: technique reviewed and clinical experience (Jochimsen and Hartfall), 686
Syndrome, afferent loop, use of conversion and interposition operations in treatment of (Jaffe and Williams), 235
cutaneous nerve entrapment, abdominal (Applegate), 118
hemolytic-uremic, renal homotransplantation in infants and children with (Cerilli, Nelsen, and Dorfmann), 66
lumbocostovertebral: single somatic defect (Touloukian), 174
subclavian steal, subclavian-subclavian bypass for (Finkelstein, Byer, and Rush), 142
Syndrome, subclavian steal—Cont'd
subclavian-subclavian bypass for correction of (Forestner et al.), 136
Systemic arterial hypertension, effect of carotid sinus lumen enlargement on (Fadali and Walstad), 452

T

Taurocholate infusion rate, biliary secretion pressure, secretin infusion, and serum ampicillin concentration, effect of: biliary excretion of ampicillin in anesthetized dog (Mandiola et al.), 664
Teaching methods, evaluating (editorial) (Kopta), 793
Technique, simple, for permanent gastrostomy (Moss), 369
Technology, Korotkoff sounds, and modern vascular surgeon (editorial) (Clark), 148
Teflon clip, smooth, partial occlusion of inferior vena cava with: analysis of long-term results (Moretz et al.), 710
Tension, arterial oxygen: significance in surgical patient (Overfield and Powers), 1
oxygen, era of (editorial) (Ebert), 146
and wound healing (editorial) (Chase), 150
Tetralogy of Fallot, total correction of, management of aorta–right pulmonary artery, anastomosis during (Ebert, Gay, and Oldham), 231
Thiamphenicol, prolongation of rat heart allograft survival by (Ono et al.), 258
Thrombin infusion, distribution of platelets, fibrin, and erythrocytes in various organs following: experimental study in dogs with and without antifibrinolytic therapy (Bergentz, Ljungqvist, and Lewis), 190
Thromboembolic disease, importance of bilateral ovarian vein ligation in control of (Grollman and Marx), 352
Thyroid carcinoma, anaplastic, hormonal dependent: case report (Macgregor and Ham), 56
Tissue gas levels as index of adequacy of circulation: relation between ischemia and development of collateral circulation (delay phenomenon), (Myers, Cherry, and Milton), 15
Torsion infarction in ectopic cryptorchidism: rare entity occurring most commonly with spastic neuromuscular disease (Phillips and Holmes), 335
Toxic factor, burn, purified, and its competitin (Rosenthal, Hawley, and Hakim), 527
Tracheoesophageal fistula and esophageal atresia, surgical management of laryngotracheoesophageal cleft with (Donahoe and Hendren), 363
mercury bag stretching of upper pouch in patient without: congenital esophageal atresia (Thomasson), 661
repair, reflex bradycardia after (Kenigsberg et al.), 125
Tract, alimentary, duplications of: report of three unusual cases associated with bile and pancreatic ducts (Akers et al.), 817
gastrointestinal, upper, leiomyomas of (Kavlie and White), 842
Transfusion, hemorrhage, and vagotomy, effect in restrained rat: studies on pathogenesis of "stress ulcer" (Ritchie, Roth, and Fischer), 445

Transperitoneal probing for detection of contralateral inguinal hernias in infants, evaluation of (Levy), 412
Transplantation, en bloc, of both kidneys from pediatric donors into adult patients (Meakins, Smith, and Alexander), 72
liver, orthotopic, in dogs, influence of histocompatibility matching according to lymphocyte types on (Chandler et al.), 807
organ, possible diagnostic test in: localization of ^{51}Cr-labeled sensitized lymphocytes at allograft region (Goren, Berke, and Urca), 513
Transplanted lung allograft, heterotopic, as auxiliary oxygenator (Blank, Rodewald, and Linberg), 902
Transposition, portacaval, pressor responses in (Valcin et al.), 201
Trauma, abdominal, blunt, diagnostic peritoneal lavage in: indications and results (Perry and Strate), 898
pancreatic: review (Northrup and Simmons), 27
surgical, effect on clearance and localization of blood-borne particulate matter (Saba), 675
excretion and conjugation pattern of 17-ketosteroids (Wise, Margraf, and Ballinger), 625
Travenol, 0.25 M.^{2}, infant membrane oxygenator, analysis of operating characteristics of (Boyd, Moran, and Clark), 262
Treatment of acute hepatic coma by ex vivo baboon and human liver perfusions (Abouna et al.), 537
of afferent loop syndrome, use of conversion and interposition operations in (Jaffe and Williams), 235
of coronary artery disease, experience with coronary artery bypass grafts in (Reul et al.), 586
of Hirschsprung's disease, simplified endorectal pull-through operation for (Satomura et al.), 345
Tube, Silastic, implanted, measurement of wound oxygen with (Niinikoski and Hunt), 22
T, in common duct after inadvertent removal, nonoperative replacement of (Dorsey, Rowen, and Hepps), 97
occluded, mechanical and chemical methods of opening (Waddell and Taubman), 91
Tuberculous enteritis with perforation and abscess formation in childhood (Porter, Snowe, and Silver), 254

U

Ulcer, cecal, bleeding: pathogenesis, angiographic diagnosis, and nonoperative control (Sutherland et al.), 290
disease, peptic, and cephalic secretion, role of distal gastrectomy, with and without vagotomy, in control of (Stempien, Lee, and Dagradi), 110
stress, during experimental shock, bile salts producing (Hamza and DenBesten), 161
studies on pathogenesis of: effect of hemorrhage, transfusion, and vagotomy in restrained rat (Ritchie, Roth, and Fischer), 445
University surgical service, laboratory utilization on (Liptzin and Williams), 247

V

Vagotomy, complete, clinical and biochemical evidence of increased gallstone formation after (Tompkins et al.), 196
hemorrhage, and transfusion, effect in restrained rat: studies in pathogenesis of "stress ulcer" (Ritchie, Roth, and Fischer), 445
with and without, role of distal gastrectomy in control of cephalic secretion and peptic ulcer disease (Stempien, Lee, and Dagradi), 110
Valve device, double-check, without moving parts for controlled intravenous fluid infusion (McNamara and Rosenberg), 225
Heart, Fascia Lata, First International Roundtable on (Trimble), 10
Vascular disease, peripheral, by coronary arteriography, evaluation of surgical risk in: series of 100 cases (Tomatis, Fierens, and Verbrugge), 429
prosthesis reinforcement, technique of (letter to editors) (Robicsek), 924; Reply Sapirstein), 924
surgeon, modern, technology, and Korotkoff sounds (editorial) (Clark), 148
Vasodilation, local, with hypertonic glucose in jejunum, mechanisms of (Chou et al.), 380
Vein, autogenous–femoropopliteal bypass graft, factors influencing patency of: analysis of 74 cases (Koontz and Stansel), 753
ligation, ovarian, bilateral, in control of thromboembolic disease, importance of (Grollman and Marx), 352
portal, or hepatic artery, effects of acute ligation of: blood supply of experimental liver metastases (Ackerman, Lien, and Silverman), 636
saphenous, inadequate, problem, another approach to: sequential femoropopliteal bypasses (DeLaurentis and Friedmann), 400
Vena cava, inferior, after portacaval anastomosis, aneurysm of (Conn and Ramsby), 828
partial occlusion with smooth Teflon clip: analysis of long-term results (Moretz et al.), 710
Venous hypertension or hemodilution in perfused lungs, comparative effects of interstitial pulmonary edema produced by (Greenfield et al.), 857
sinuses, dural, management of combat wounds of (Kapp and Gielchinsky), 913
Ventricular bypass, left, total, achieved by extracardiac cannulation, experimental studies of (Stansel and Tanae), 76
septum, prosthetic, effect on canine cardiac function (Seki, Tsakiris, and McGoon), 241
Villous adenomas of small intestine (Steinberg and Shieber), 423
Vitamin B^{12} (low-molecular compound) by damaged small intestine, passive absorption of: method of quantitative studies (Frauchiger, Kummer, and Lundsgaard-Hansen), 357
Volume, blood, and red cell determinations using ^{51}RBC, effects of canine spleen on (Nelson and Swan), 215

W

Water, pulmonary extravascular, measurement of (Lindsay and Humphrey), 650

Weight, low-birth-, infants, high-calorie infusion therapy following surgery in: metabolic problems encountered (Hays et al.), 834
Work loads, surgical (editorial) (Chase), 475
in community practice (Hughes et al.), 315
Wound(s), combat, of dural venous sinuses, management of (Kapp and Gielchinsky), 913
Wound(s)—Cont'd
healing and oxygen tension (editorial) (Chase), 150
oxygen, measurement with implanted Silastic tube (Niinikoski and Hunt), 22

X

Xanthine oxidase inhibition in cardiac arrest, effects of (Parker and Smith), 339

SUBJECT INDEX*

A

Abdominal aorta, supraceliac, in single patient, repair of two traumatic aneurysms of (Yarbrough, Grooms, and Flint), 371
aortic aneurysms, aortocaval fistula as complication of (Baker, Sharzer, and Ehrenhaft), 923
ultrasonic detection and evaluation of (Leopold, Goldberger, and Bernstein), 939

Academic arena, plea to retain surgical generalist in: historical aspects of some surgical training programs (Wangensteen), 692

Acid-base changes, metabolic, acute, effects of, on secretion of gastrin and parathyroid hormone (Kaplan, Peskin, and Jaffe), 53
status and tissue perfusion and oxygenation, clinical experience with continuous muscle pH monitoring as index of (Filler, Das, and Espinosa), 23

Acidosis, cellular, and altered cation concentrations on shock-induced mitochondrial damage, influence of (Mela, Miller, and Nicholas), 102

Addicts, drug, gangrene due to intra-arterial injection of drugs by (Gaspar and Hare), 573

Adenomas, papillary (villous), of colon and rectum (Orringer and Eggleston), 378

Africa semper aliquid novi, ex (Loewenthal) (editorial), 483

Alkalosis, metabolic, and respiratory failure in critically ill patients (Steer et al.), 408

Allen O. Whipple Surgical Society: summary of Eighteenth Annual Meeting (Longmire), 495

Allografts, human, preserved, for vascular reconstruction, clinical experience with (Tice and Zerbino), 260

Alloplastic tray, bone induction in: mandibular reconstruction (Leake and Rappoport), 332

American Board of Medical Specialties, view of graduate surgical education from (Holden), 539
College of Surgeons, view of graduate surgical education from (Reemtsma), 549
Hospital Association, view of graduate surgical education from (Ainsworth), 542
Medical Association, view of graduate surgical education from (Ruhe), 536

Amputations, digital, in diabetic patients (Sizer and Wheelock), 980

Anastomosis, small vessel, signs of patency in (Acland), 744

Anastomotic false aneurysms (Gardner, Brawley, and Gott), 474

Anesthesia, halothane, and safe period of total circulatory arrest: hypothermia (Mohri, Dillard, and Merendino), 345

Anesthesiology, graduate training in (Dripps), 525

Aneurysms, aortic, abdominal, aortocaval fistula as complication of (Baker, Sharzer, and Ehrenhaft), 923
ultrasonic detection and evaluation of (Leopold, Goldberger, and Bernstein), 939
of extracranial carotid artery (Kaupp et al.), 946
false, anastomotic (Gardner, Brawley, and Gott), 474
traumatic, two, of supraceliac abdominal aorta in single patient, repair of (Yarbrough, Grooms, and Flint), 371

Angiographic assessment of autogenous vein grafts (Downs and Morrow), 699

Anticoagulation during pre- and postoperative hemodialysis, simple method for, avoiding rebound phenomenon (Kjellstrand and Busehmeier), 630

Antigen-coated columns in extracorporeal thoracic duct circulation, evaluation of: selective immunosuppression (Fitts et al.), 212

sarcoma, human, common, and its specific inhibition by sera from patients with growing sarcomas, cellular immunity to (Cohen, Ketcham, and Morton), 560

*July, pp. 1-174; August, pp. 175-336; September, pp. 337-494; October, pp. 495-658; November, pp. 659-818; December, pp. 819-1102.

Antigenicity, altered, in spontaneous pulmonary metastases from antigenic murine sarcoma (Sugarbaker and Cohen), 155
Aorta, abdominal, supraceliac, in single patient, repair of two traumatic aneurysms of (Yarbrough, Grooms, and Flint), 371
ascending-to-right pulmonary artery shunts: experience with 100 patients (Waterston, Stark, and Ashcraft), 897
thoracic, to femoral arteries for high aortoiliac occlusive disease, bypass grafting from (Nunn and Kamal), 749
Aortic aneurysms, abdominal, aortocaval fistula as complication of (Baker, Sharzer, and Ehrenhaft), 923
ultrasonic detection and evaluation of (Leopold, Goldberger, and Bernstein), 939
valve disease and open-heart surgery, acute gastrointestinal ulceration with (Katz et al.), 438
replacement: two years' experience with Bjork-Shiley tilting-disc prosthesis (Messmer et al.), 772
Aortocaval fistula as complication of abdominal aortic aneurysms (Baker, Sharzer, and Ehrenhaft), 923
Aortocoronary artery saphenous vein grafts, factors influencing patency of (Urschel et al.), 1048
Aortoiliac occlusive disease, high, bypass grafting from thoracic aorta to femoral arteries for (Nunn and Kamal), 749
Arrest, circulatory, total, halothane anesthesia and safe period of: hypothermia (Mohri, Dillard, and Merendino), 345
Arterial, hepatic, and portal venous blood flow, interaction between: experimental study in dog (Kock et al.), 414
lumen, ultrasonic visualization of (Mozersky et al.), 253
reconstructions, intimal and neointimal fibrous proliferation causing failure of (Imparato et al.), 1007
Arteriography, coronary, acute coronary occlusion following: mechanisms and surgical relief (Takaro et al.), 1018
Arteriosclerotic lesions, coronary, proximal, and distal thromboembolism (Mills and Ochsner), 1030
Artery(ies), aortocoronary, saphenous vein grafts, factors influencing patency of (Urschel et al.), 1048
brachial, thrombosis: management of postcatheterization (Page, Hagood, and Kemmerer), 619
bypass, axillofemoral, unusual complication of (Orringer, Rutherford, and Skinner), 769
carotid, extracranial, aneurysms of (Kaupp et al.), 946
celiac, compression syndrome: does it exist? (Szilagyi et al.), 849
coronary, bypass grafts, human, and left ventricular function (Enright et al.), 404
femoral, for high aortoiliac occlusive disease, bypass grafting from thoracic aorta to (Nunn and Kamal), 749
mesenteric, superior, in children, duodenal obstruction by (Wayne and Burrington), 762
popliteal, entrapment by fibrous band (Haimovici, Sprayregen, and Johnson), 789
Artery(ies)—Cont'd
pulmonary, right-to-ascending aorta shunts: experience with 100 patients (Waterston, Stark, and Ashcraft), 897
vein bypass grafts, coronary, in patients requiring valve replacement (Oury et al.), 1037
Aspiration pneumonia: physiologic data following experimental aspiration (Cameron et al.), 238
Association of American Medical Colleges, view of graduate surgical education from (Kinney), 534
Atherosclerosis, animal models for study of progression and regression of (DePalma et al.), 268
experimental, influence of segmental hypotension on (Kakos et al.), 479
ATP-dependent and ATP-yielding cell processes, altered, in shock, dynamics of (Baue, Wurth, and Sayeed), 94
Atrioventricular canal, complete, surgical treatment of (McMullen et al.), 905
Autogenous vein grafts, angiographic assessment of (Downs and Morrow), 699
Autotransplantation, cardiopulmonary, in primates (baboons): late functional results (Castaneda et al.), 1064
Axillofemoral artery bypass, unusual complication of (Orringer, Rutherford, and Skinner), 769

B

Bile-secretion studies and gastroduodenal hormones in isolated perfused pig liver (Gordon et al.), 708
Biliary duct obstruction, delayed, after orthotopic liver transplantation (Martineau et al.), 604
tract disorders and sickle cell disease (Flye and Silver), 361
Billroth in 1870 (Rosen), 337
Bioengineering research and postgraduate training: surgeon and engineer (Drinker), 521
Bjork-Shiley tilting-disc prosthesis, two years' experience with: aortic valve replacement (Messmer et al.), 772
Blood flow to liver and spleen during endotoxin shock in baboon (Swan and Reynolds), 388
portal and total hepatic, by intestinal xenon technique, measurement of (Shizgal and Goldstein), 83
venous and hepatic arterial, interaction between: experimental study in dog (Kock et al.), 414
renal, total, subcutaneous conduit carrying: experimental preparation in dogs (Sykes and Schenk), 434
Bone induction in alloplastic tray: mandibular reconstruction (Leake and Rappoport), 332
Brachial artery thrombosis: management of postcatheterization (Page, Hagood, and Kemmerer), 619
Britain, observations on surgical care in: report to James IV Association of Surgeons (Fonkalsrud), 643
Bypass, artery, axillofemoral, unusual complication of (Orringer, Rutherford, and Skinner), 769

Bypass—Cont'd
cardiopulmonary, total, in neonates, use of hemodilution during: experimental evaluation employing a miniaturized heart-lung machine (Housman, Turina, and Braunwald), 460
femorofemoral, retropub.c: new route through space of Retzius (Tyson and Reichle), 401
grafts, artery, coronary, human, and left ventricular function (Enright et al.), 404
coronary artery vein, in patients requiring valve replacement (Oury et al.), 1037
from thoracic aorta to femoral arteries for high aortoiliac occlusive disease (Nunn and Kamal), 749

C

Calcium challenge in Zollinger-Ellison syndrome (Passaro, Basso, and Walsh), 60
Canada, role of government in graduate medical education in (Mueller), 500
Canal, atrioventricular, complete, surgical treatment of (McMullan et al.), 905
Cancer of pancreas and stomach (Maruchi) (letter to editors), 657; reply (Stephenson), 657
Candidiasis, disseminated, in surgical patient (Gaines and Remington), 730
Carbon monoxide poisoning: experimental hypothermic and hyperbaric studies (Peirce et al.), 229
Cardiac surgeon, ought to be, what (Morrow), (Presidential address, Society for Vascular Surgery), 819
Cardiopulmonary autotransplantation in primates (baboons): late functional results (Castaneda et al.), 1064
bypass, total, in neonates, use of hemodilution during: experimental evaluation employing miniaturized heart-lung machine (Housman, Turina, and Braunwald), 460
support, total, in 110 patients during heart surgery, Landé-Edwards membrane oxygenator for (Carlson et al.), 913
Cardiovascular pulmonary research, horizons in (Austen), 279
Carotid artery, extracranial, aneurysms of (Kaupp et al.), 946
endarterectomy, intraoperative measurement of carotid back pressure as guide to operative management for (Hays, Levinson, and Wylie), 953
Catecholamines, plasma, effects of surface-induced hypothermia and circulatory occlusion on (Mohri et al.), 596
Cation concentrations, altered, and cellular acidosis on shock-induced mitochondrial damage, influence of (Mela, Miller, and Nicholas), 102
Celiac artery compression syndrome: does it exist? (Szilagyi et al.), 849
Cell processes, ATP-dependent and ATP-yielding, altered, in shock, dynamics of (Baue, Wurth, and Sayeed), 94
serum, antiplasma, tumor-inhibitory effect of (Jagarlamoody and McKhann), 149
sickle, disease and biliary tract disorders (Flye and Silver), 361
Cellular acidosis and altered cation concentrations on shock-induced mitochondrial damage, influence of (Mela, Miller, and Nicholas), 102
Cellular—Cont'd
immunity to common human sarcoma antigen and its specific inhibition by sera from patients with growing sarcomas (Cohen, Ketcham, and Morton), 560
Circulation, duct, thoracic, extracorporeal, evaluation of antigen-coated columns in: selective immunosuppression (Fitts et al.), 212
Circulatory arrest, total, halothane anesthesia and safe period of: hypothermia (Mohri, Dillard, and Merendino), 345
and metabolic contributions to oxygen gradients in wounds (Ehrlich, Grislis, and Hunt), 578
occlusion and surface-induced hypothermia on plasma catecholamines, effects of (Mohri et al.), 596
Colon and rectum, papillary (villous) adenomas of (Orringer and Eggleston), 378
Columns, antigen-coated, in extracorporeal thoracic duct circulation, evaluation of: selective immunosuppression (Fitts et al.), 212
Coma, hepatic, acute: canine model (Misra et al.), 634
Commissurotomy, mitral, closed: operative results and late follow-up in 137 patients (Turina, Messmer, and Senning), 812
Complement system in renal homograft recipients (Yokoyama et al.), 611
Compression, celiac artery, syndrome: does it exist? (Szalagyi et al.), 849
Conduit, subcutaneous, carrying total renal blood flow: experimental preparation in dogs (Sykes and Schenk), 434
Coronary arteriosclerotic lesions, proximal, and distal thromboembolism (Mills and Achsner), 1030
artery bypass grafts, human, and left ventricular function (Enright et al.), 404
vein bypass grafts in patients requiring valve replacement (Oury et al.), 1037
occlusion, acute, following coronary arteriography: mechanisms and surgical relief (Takaro et al.), 1018
Cortisol secretion, new concept on pre- and postoperative regulation of (Wise, Margraf, and Ballinger), 290
Culture, mixed, in response to human renal transplantation, reactivity of lymphocytes in (Miller and Hattler), 220
Curriculum, integrated, experimental, for first-year medical students (Miller et al.), 323
Cyproheptadine hydrochloride, intravenous, in treatment of pulmonary embolism: experimental study (Nemir, Hamilton, and Brody), 920

D

Damage, mitochondrial, shock-induced, influence of cellular acidosis and altered cation concentrations of (Mela, Miller, and Nicholas), 102
Decompression, portal, total or selective, end renal vein-to-splenic vein shunts for (Warren et al.), 995
Detection, ultrasonic, and evaluation of abdominal aortic aneurysms (Leopold, Goldberger, and Bernstein), 933
Diabetic patients, digital amputations in (Sizer and Wheelock), 980

Diaphragmatic hernia in fetal lambs, hemodynamic and pulmonary changes following surgical creation of (Kent et al.), 427
Digital amputations in diabetic patients (Sizer and Wheelock), 980
Disc, tilting-, prosthesis, Bjork-Shiley, two years' experience with: aortic valve replacement (Messmer et al.), 772
Disease, sickle cell, and biliary tract disorders (Flye and Silver), 361
Fabry's: correction of enzymatic deficiencies by renal transplantation (Desnick et al.), 203
glycogen storage, portacaval shunt: value of prolonged intravenous hyperalimentation before surgery (Folkman et al.), 306
occlusive, aortoiliac, high, bypass grafting from thoracic aorta to femoral arteries for (Nunn and Kamal), 749
valve, aortic, and open-heart surgery, acute gastrointestinal ulceration with (Katz et al.), 438
Drug addicts, gangrene due to intra-arterial injection of drugs by (Gaspar and Hare), 573
Duct, biliary, obstruction, delayed, after orthotopic liver transplantation (Martineau et al.), 604
circulation, thoracic, extracorporeal, evaluation of antigen-coated columns in: selective immunosuppression (Fitts et al.), 212
Duodenal obstruction by superior mesenteric artery in children (Wayne and Burrington), 762
Dynamics of altered ATP-dependent and ATP-yielding cell processes in shock (Baue, Wurth, and Sayeed), 94

E

East, Near, university medicine in, 1971: three-year perspective (Harrison), 681
Editorial opinion and responsibility, on (Shoemaker) (letter to editors), 490; reply (the Editors), 490
Education, medical, graduate, role of government in Canada (Mueller), 500
of government in Germany (Encke), 505
of government in Latin America (Patiño), 515
of government in other countries: introductory remarks (Patiño), 498
of government in Russia (Hilton), 509
who pays for (Leape et al.), 16
surgical, graduate, view of, from American Board of Medical Specialties (Holden), 539
from American College of Surgeons (Reemtsma), 549
from American Hospital Association (Ainsworth), 542
from American Medical Association (Ruhe), 536
from Association of American Medical Colleges (Kinney), 534
introductory remarks (Anlyan), 533
from National Institutes of Health (Endicott), 545
from Veterans Administration (Eiseman), 546
Embolism, pulmonary, intravenous cyproheptadine hydrochloride in treatment of: experimental study (Nemir, Hamilton, and Brody), 920
Emergency, hospital, capabilities, concept of categorization of (Hampton) (editorial), 653
Endarterectomy, carotid, intraoperative measurement of carotid back pressure as guide to operative management for (Hays, Levinson, and Wylie), 953
gas, six-year follow-up study in use of (Sawyer et al.), 837
Endogenous gastrin, pre- and posthepatic measurements of (Reeder et al.), 34
Endotoxin shock, blood flow to liver and spleen during (Swan and Reynolds), 388
terminal, preservation of myocardial function during cross-circulation in (Greenfield et al.), 111
Engineer and surgeon: bioengineering research and postgraduate training (Drinker), 521
Enzymatic deficiencies by renal transplantation, correction of: Fabry's disease (Desnick et al.), 203
Esophageal replacement with jejunum for non-malignant lesions: 26 years' experience (Dave et al.), 466
Esophagus, subcutaneous, into retrosternal one, reconstruction of (Petrov and Sitnik), 369
Exocrine secretion, pancreatic, in dogs, critical nature of gastrin in (Orahood et al.), 42
Extracorporeal thoracic duct circulation, evaluation of antigen-coated columns in: selective immunosuppression (Fitts et al.), 212
Extracranial carotid artery, aneurysms of (Kaupp et al.), 946
Extravascular and intravascular volumes, pulmonary, in hemorrhagic shock and fluid replacement (Magilligan et al.), 780

F

Fabry's disease: correction of enzymatic deficiencies by renal transplantation (Desnick et al.), 203
Familial midgut volvulus (Smith), 420
Fee for service—will it survive? (Crane and Mozden) (editorial), 486
Femoral arteries for high aortoiliac occlusive disease, bypass grafting from thoracic aorta to (Nunn and Kamal), 749
Femorofemoral bypass, retropubic: new route through space of Retzius (Tyson and Reichle), 401
grafts, broadened indications for (Davis et al.), 990
Fibrous band, popliteal artery entrapment (Haimovici, Sprayregen, and Johnson), 789
Fistula, aortocaval, as complication of abdominal aortic aneurysms (Baker, Sharzer, and Ehrenhaft), 923
Flora, microbial, role of, in acute gastric stress ulceration (Nance, Kaufman, and Batson), 68
Flow, blood, to liver and spleen during endotoxin shock in baboon (Swan and Reynolds), 388
portal and total hepatic, measurement of, by intestinal xenon technique (Shizgal and Goldstein), 83
venous and hepatic arterial, interaction between: experimental study in dog (Kock et al.), 414

Flow, blood—Cont'd
renal, total, subcutaneous conduit carrying: experimental preparation in dogs (Skyes and Schenk), 434
in preserved kidneys, effect of warm ischemic damage on intrarenal distribution of (Miller, Alexander, and Nathan), 193
Fluid replacement and hemorrhagic shock, pulmonary intravascular and extravascular volumes in (Magilligan et al.), 780
Function of gastric mucosa, effects of pyloric stenosis upon (Adkins et al.), 584
mucociliary, effect of high oxygen tension on (Wolfe, Ebert, and Sabiston), 246
ventricular, left, and human coronary artery bypass grafts (Enright et al.), 404

G

Gangrene due to intra-arterial injection of drugs by drug addicts (Gaspar and Hare), 573
Gas endarterectomy, six-year follow-up study in use of (Sawyer et al.), 837
Gastric juice of man, canine secretory response to gastrin extracted from (Jordan and Yip), 624
stimulated, in man, presence of gastrin in fasting and (Jordan and Yip), 352
mucosa, effects of pyloric stenosis upon function of (Adkins et al.), 584
stress ulceration, acute, role of microbial flora in (Nance, Kaufman, and Batson), 68
Gastrin, endogenous, pre- and posthepatic measurements of (Reeder et al.), 34
extracted from gastric juice of man, canine secretory response to (Jordan and Yip), 624
in fasting and stimulated gastric juice of man, presence of (Jordan and Yip), 352
in pancreatic exocrine secretion in dogs, critical nature of (Orahood et al.), 42
and parathyroid hormone, effects of acute metabolic acid-base changes on secretion of (Kaplan, Peskin, and Jaffe), 53
Gastroduodenal hormones and bile-secretion studies in isolated perfused pig liver (Gordon et al.), 708
Gastrointestinal research, horizons in (Silen), 91
ulceration, acute, with open-heart surgery and aortic valve disease (Katz et al.), 438
Generalist, surgical, in academic arena, plea to retain: historical aspects of some surgical training programs (Wangensteen), 692
Germany, role of government in graduate medical education in (Encke), 505
Glucagon as portal factor modifying hepatic regeneration (Price et al.), 74
Glycogen storage disease, portacaval shunt: value of prolonged intravenous hyperalimentation before surgery (Folkman et al.), 306
Gonadotropin and testosterone radioimmunoassays, long-term: testicular transplantation in rat (Gittes et al.), 187
Government, role in graduate medical education (*See* Education)
Graduate medical education (*See* Education)
surgical education (*See* Education)
training (*See* Graduate)
in anesthesiology (Dripps), 525
in law (Katz), 528
in preclinical sciences (Stetten), 518
Graft(s), coronary artery bypass, human, and left ventricular function (Enright et al.), 404
vein bypass, in patients requiring valve replacement (Oury et al.), 1037
femorofemoral, broadened indications for (Davis et al.), 990
vein, autogenous, angiographic assessment of (Downs and Morrow), 699
saphenous, aortocoronary artery, factors influencing patency of (Urschel et al.), 1048
Grafting, bypass, from thoracic aorta to femoral arteries for high occlusive disease (Nunn and Kamal), 749
Granulations, wound, and partial-thickness skin, nature of bond between (Burleson and Eiseman), 315

H

Halothane anesthesia and safe period of total circulatory arrest: hypothermia (Mohri, Dillard, and Merendino), 345
Halsted, William S., and private practice: reexamination (Olch), 804
Heart-lung machine, miniaturized, experimental evaluation employing: use of hemodilution during total cardiopulmonary bypass in neonates (Housman, Turina, and Braunwald), 460
open-, surgery and aortic valve disease, acute gastrointestinal ulceration with (Katz et al.), 438
stone, syndrome (Wukasch et al.), 1071
surgery, Landé-Edwards membrane oxygenator for total cardiopulmonary support in 110 patients during (Carlson et al.), 913
Hematoma, "spontaneous," of rectus abdominis muscle: critical review of 50 cases with emphasis on early diagnosis and treatment (Titone, Lipsius, and Krakauer), 568
Hemodialysis, pre- and postoperative, avoiding rebound phenomenon, simple method for anticoagulation during (Kjellstrand and Buselmeier), 630
Hemodilution during total cardiopulmonary bypass in neonates, use of: experimental evaluation employing a miniaturized heart-lung machine (Housman, Turina, and Braunwald), 460
Hemodynamic and pulmonary changes following surgical creation of diaphragmatic hernia in fetal lambs (Kent et al.), 427
Hemorrhagic shock and fluid replacement, pulmonary intravascular and extravascular volumes in (Magilligan et al.), 780
and resuscitation, ventilatory response to (Siegel, Cochin, and Moss), 451
Hepatic arterial and portal venous blood flow, interaction between: experimental study in dog (Kock et al.), 414
coma, acute: canine model (Misra et al.), 634
portion of inferior vena cava, membranous obstruction of: clinical study of nine cases (Kimura et al.), 551
pre- and post-, measurements of mass of endogenous gastrin (Reeder et al.), 34
regeneration, glucagon as portal factor modifying (Price et al.), 74

Hepatic—Cont'd
total, and portal blood flow by intestinal xenon technique, measurement of (Shizgal and Goldstein), 83
Hernia, diaphragmatic, in fetal lambs, hemodynamic and pulmonary changes following surgical creation of (Kent et al.), 427
Homograft, renal, recipients, complement system in (Yokoyama et al.), 611
venous: immunological question (Perloff et al.), 961
Hormone(s), gastroduodenal, and bile-secretion studies in isolated perfused pig liver (Gordon et al.), 708
parathyroid, and gastrin, effects of acute metabolic acid-base changes on secretion of (Kaplan, Peskin, and Jaffe), 53
Hospital emergency capabilities, concept of categorization of (Hampton) (editorial), 653
time for surgical procedures (Tanaka) (letter to editors), 488
Human allografts, preserved, for vascular reconstruction, clinical experience with (Tice and Zerbino), 260
coronary artery bypass grafts and left ventricular function (Enright et al.), 404
malignant melanoma, immune responses induced by (Goodwin et al.), 737
renal transplantation, reactivity of lymphocytes in mixed culture in response to (Miller and Hattler), 220
sarcoma antigen, common, and its specific inhibition by sera from patients with growing sarcomas, cellular immunity to (Cohen, Ketcham, and Morton), 560
Humoral regulation of renal mass (Van Vroonhoven, Soler-Montesinos, and Malt), 300
Hyperalimentation, intravenous, prolonged, before surgery, value of: portacaval shunt for glycogen storage disease (Folkman et al.), 306
Hyperbaric and hypothermic studies, experimental: carbon monoxide poisoning (Peirce et al.), 229
Hypotension, segmental, on experimental atherosclerosis, influence of (Kakos et al.), 479
Hypothermia: halothane anesthesia and safe period of total circulatory arrest (Mohri, Dillard, and Merendino), 352
surface-induced, and circulatory occlusion of plasma catecholamines, effects of (Mohri et al.), 596
Hypothermic and hyperbaric studies, experimental: carbon monoxide poisoning (Peirce et al.), 229

I

Immune responses induced by human malignant melanoma in rabbit (Goodwin et al), 737
Immunity, cellular, to common human sarcoma antigen and its specific inhibition by sera from patients with growing sarcomas (Cohen, Ketcham, and Morton), 560
Immunological question: venous homograft (Perloff et al.), 961
Immunosuppression, selective: evaluation of antigen-coated columns in extracorporeal thoracic duct circulation (Fitts et al.), 212
Immunotherapy, nonspecific and specific, in patients with melanoma (Seigler et al.), 162
Infarction, myocardial, shock, surgical implications of physiologic patterns in (Siegel et al.), 126
Inferior vena cava, membranous obstruction of hepatic portion of: clinical study of nine cases (Kimura et al.), 551
Inhibition, specific, its, by sera from patients with growing sarcomas, cellular immunity to common human sarcoma antigen and (Cohen, Ketcham, and Morton), 560
Injection, intra-arterial, of drugs by drug addicts, gangrene due to (Gaspar and Hare), 573
Intestinal juices, "malevolent" (Delaney) (letter to editors): reply (Silen), 494
xenon technique, measurement of portal and total hepatic blood flow by (Shizgal and Goldstein), 83
Intimal and neointimal fibrous proliferation causing failure of arterial reconstructions (Imparato et al.), 1007
Intrarenal distribution of flow in preserved kidneys, effect of warm ischemic damage on (Miller, Alexander, and Nathan), 193
Intravascular and extravascular volumes, pulmonary, in hemorrhagic shock and fluid replacement (Magilligan et al.), 780
Intravenous cyproheptadine hydrochloride in treatment of pulmonary embolism: experimental study (Nemir, Hamilton, and Brody), 920
hyperalimentation, prolonged, before surgery, value of: portacaval shunt for glycogen storage disease (Folkman et al.), 306
Ischemic damage, warm, on intrarenal distribution of flow in preserved kidneys, effect of (Miller, Alexander, and Nathan), 193
Islets, pancreatic, intact, in rats, transplantation of (Ballinger and Lacy), 175

J

James IV Association of Surgeons, report to: observations of surgical care in Britain (Fonkalsrud), 643
Jejunum for nonmalignant lesions, esophageal replacement with: 26 years' experience (Dave et al.), 474

K

Kidneys, preserved, effect of warm ischemic damage on intrarenal distribution of flow in (Miller, Alexander, and Nathan), 193

L

Landé-Edwards membrane oxygenator for total cardiopulmonary support in 110 patients during heart surgery (Carlson et al.), 913
Laparotomy, exploratory, for staging of lymphomas (Elias, Park, and Mittelman), 590
Latin America, role of government in graduate medical education in (Patiño), 515

Lattices, polyurethane, microporous, pseudointimal development on (Berkowitz, Perloff, and Roberts), 888
Law, graduate training in (Katz), 528
Lesions, arteriosclerotic, coronary, proximal, and distal thromboembolism (Mills and Ochsner), 1030
nonmalignant, esophageal replacement with jejunum for: 26 years' experience (Dave et al.), 466
Liver, pig, perfused, isolated, gastroduodenal hormones and bile-secretion studies in (Gordon et al.), 708
preservation, prolonged, studies in (Birnbaum, Soyer, and Eiseman), 722
and spleen during endotoxin shock, blood flow to (Swan and Reynolds), 388
stump, resected, repair of: experimental study (Tsuzuki et al.), 395
transplantation, orthotopic, delayed biliary duct obstruction after (Martineau et al.), 604
Lumen, arterial, ultrasonic visualization of (Mozersky et al.), 253
Lung, heart-, machine, miniaturized, experimental evaluation employing: use of hemodilution during total cardiopulmonary bypass in neonates (Housman, Turina, and Braunwald), 460
shunting in: two-compartment model (Hechtman et al.), 443
Lymphocytes in mixed culture in response to human renal transplantation, reactivity of (Miller and Hattler), 220
Lymphomas, exploratory laparotomy for staging of (Elias, Part, and Mittelman), 590
Lye stricture, tracheal resection for (Leape, Ashcraft, and Mann), 357

M

Malignant melanoma, human, immune response induced by (Goodwin et al.), 737
Management, effective, of multitransfused patient (Kaplan) (editorial), 650
of postcatheterization: brachial artery thrombosis (Page, Hagood, and Kemmerer), 619
Mandibular reconstruction: bone induction in alloplastic tray (Leake and Rappoport), 332
Manpower drain, surgical (Patiño), 668
Mass, renal, humoral regulation of (Van Vroonhoven and Malt), 300
Measurement, intraoperative, of carotid back pressure as guide to operative management for carotid endarterectomy (Hays, Levinson, and Wylie), 953
Meckel's diverticulum, search for (Lebowitz and Treves) (letter to editors), 492: reply (Jewett), 493
Medical education, graduate (*See* Education)
who pays for (Leape et al.), 16
students, first year, experimental integrated curriculum for (Miller et al.), 323
Medicine, American, structure and role in: university department of surgery (Orloff) (Presidential address, Society of University Surgeons), 1
university department of surgery in: its structure and role in: (Orloff) (Presidential address, Society of University Surgeons), 1
Medicine—Cont'd
university in Near East, 1971: three-year perspective (Harrison), 681
Melanoma, malignant, human, immune responses induced by (Goodwin et al.), 737
nonspecific and specific immunotherapy in patients with (Seigler et al.), 162
Membrane oxygenator, Landé-Edwards, for total cardiopulmonary support in 110 patients during heart surgery (Carlson et al.), 913
Membranous obstruction of hepatic portion of inferior vena cava: clinical study of nine cases (Kimura et al.), 551
Mesenteric artery, superior, in children, duodenal obstruction by (Wayne and Burrington), 762
Metabolic acid-base changes, acute, effects of, on secretion of gastrin and parathyroid hormone (Kaplan, Peskin, and Jaffe), 53
alkalosis and respiratory failure in critically ill patients (Steer et al.), 408
and circulatory contributions to oxygen gradients in wounds (Ehrlich, Grislis, and Hunt), 578
Metastases, pulmonary, spontaneous, from antigenic murine sarcoma, altered antigeniticity in (Sugarbaker and Cohen), 155
Microbial flora in acute gastric stress ulceration, role of (Nance, Kaufman, and Batson), 68
Midgut volvulus, familial (Smith), 420
Mitochondrial damage, shock-induced, influence of cellular acidosis and altered cation concentrations on (Mela, Miller, and Nicholas), 102
Mitral commissurotomy, closed: operative results and late follow-up in 137 patients (Turina, Messmer, and Senning), 812
valve for mitral incompetence, replacement of (Kirklin) (John Homans Lecture, Society for Vascular Surgery), 827
Monoxide, carbon, poisoning: experimental hypothermic and hyperbaric studies (Peirce et al.), 229
Mucosa, gastric, effects of pyloric stenosis upon function of (Adkins et al.), 584
Mucociliary function, effect of high oxygen tension on (Wolfe, Ebert, and Sabiston), 246
Multitransfused patient, effective management of (Kaplan) (editorial), 650
Muscle pH monitoring, continuous, as index of tissue perfusion and oxygenation and acid-base status, clinical experience with (Filler, Das, and Espinosa), 23
rectus abdominis, "spontaneous" hematoma: critical review with emphasis on earl, diagnosis and treatment (Titone, Lipsius, and Krakauer), 568
Myocardial function during cross-circulation in terminal endotoxin shock, preservation of (Greenfield et al.), 111
infarction shock, surgical implications of physiologic patterns in (Siegel et al.), 126

N

National Institutes of Health, view of graduate surgical education from (Endicott), 545
Neointimal and intimal fibrous proliferation causing failure of arterial reconstructions (Imparato et al.), 1007

Neonates, use of hemodilution during total cardiopulmonary bypass in: experimental evaluation employing a miniaturized heart-lung machine (Housman, Turina, and Braunwald), 460
Nonmalignant lesions, esophageal replacement with jejunum for: 26 years' experience (Dave et al.), 466

O

Obstruction, duct, biliary, delayed, after orthotopic liver transplantation (Martineau et al.), 604
duodenal, by superior mesenteric artery in children (Wayne and Burrington), 762
membranous, of hepatic portion of inferior vena cava: clinical study of nine cases (Kimura et al.), 551
Occlusion, circulatory, and surface-induced hypothermia, effects of, on plasma catechloamines (Mohri et al.), 596
coronary, acute, following coronary arteriography: mechanisms and surgical relief (Takaro et al.), 1018
Occlusive disease, aortoiliac, high, bypass grafting from thoracic aorta to femoral arteries for (Nunn and Kamal), 749
Orthotopic liver transplantation, delayed biliary duct obstruction after (Martineau et al.), 604
Outflow, venous, maximum, in acute thrombophlebitis, noninvasive quantitation of (Barnes et al.), 971
Oxygen gradients in wounds, metabolic and circulatory contribution to (Ehrlich, Grislis, and Hunt), 578
tension, high, effect of, on mucociliary function (Wolfe, Ebert, and Sabiston), 246
Oxygenation, tissue perfusion, and acid-base status, clinical experience with continuous muscle pH monitoring as index of (Filler, Das, and Espinosa), 23
Oxygenator, membrane, Landé-Edwards, for total cardiopulmonary support in 110 patients during heart surgery (Carlson et al.), 913

P

Pancreas and stomach, cancer of (Maruchi) (letter to editors), 657; reply (Stephenson), 657
Pancreatic exocrine secretion in dogs, critical nature of gastrin in (Orahood et al.), 42
islets, intact, in rats, transplantation of (Ballinger and Lacy), 175
Papillary (villous) adenomas of colon and rectum (Orringer and Eggleston), 378
Parathyroid hormone and gastrin, effects of acute metabolic acid-base changes on secretion of (Kaplan, Peskin, and Jaffe), 53
Patency of aortocoronary artery saphenous vein grafts, factors influencing (Urschel et al.), 1048
in small vessel anastomosis, signs of (Acland), 744
Perfused liver, pig, isolated, gastroduodenal hormones and bile-secretion studies in (Gordon et al.), 708
Perfusion and nonperfusion methods for renal preservation, comparative analysis of (Santiago-Delphin et al.), 793
Perfusion—Cont'd
tissue, and oxygenation and acid-base status, clinical experience with continuous muscle pH monitoring as index of (Filler, Das, and Espinosa), 23
Phenomenon, rebound, avoiding, in simple method for anticoagulation during pre- and postoperative hemodialysis (Kjellstrand and Buselmeier), 630
Physician's Associate Program, Duke, surgical trainees in (Detmer et al.), 142
Physiologic patterns in myocardial infarction shock, surgical implications of (Siegel et al.), 126
Plasma catecholamines, effects of surface-induced hypothermia and circulatory occlusion on (Mohri et al.), 596
Pneumonia, aspiration: physiologic data following experimental aspiration (Cameron et al.), 238
Poisoning, carbon monoxide: experimental hypothermic and hyperbaric studies (Peirce et al.) 229
Polyurethane lattices, microporous, pseudointimal development on (Berkowitz, Perloff, and Roberts), 888
Popliteal artery entrapment by fibrous band (Haimovici, Sprayregen, and Johnson), 789
Portacaval shunt for glycogen storage disease: value of prolonged intravenous hyperalimentation before surgery (Folkman et al.), 306
Portal decompression, total or selective end renal vein–to–splenic vein shunts for (Warren et al.), 995
factor modifying hepatic regeneration, glucagon as (Price et al.), 74
and total hepatic blood flow by intestinal xenon technique, measurement of (Shizgal and Goldstein), 83
venous and hepatic arterial blood flow, interaction between: experimental study in dog (Kock et al.), 414
Postcatheterization, management of: brachial artery thrombosis (Page, Hagood, and Kemmerer), 619
Postgraduate training and bioengineering research: surgeon and engineer (Drinker), 521
Preclinical sciences, graduate training in (Stetten), 518
Preservation, liver, prolonged, studies in (Birnbaum, Soyer, and Eiseman), 722
of myocardial function during cross-circulation in terminal endotoxin shock (Greenfield et al.), 111
renal, comparative analysis of perfusion and nonperfusion methods for (Santiago-Delphin et al.), 793
Preserved human allografts for vascular reconstruction, clinical experience with (Tice and Zerbino), 260
Presidential address, Society of University Surgeons (Orloff), 1
for Vascular Surgery (Morrow), 819
Pressure, carotid back, as guide to operative management for carotid endarterectomy, intraoperative measurement of (Hays, Levinson, and Wylie), 953
Primates (baboons), a cardiopulmonary autotransplantation in: late functional results (Castaneda et al.), 1064
Private practice and Wiliam S. Halsted: re-examination (Olch), 804

Program(s), Duke Physician's Associate, surgical trainees in (Detmer et al.), 142
training, surgical, some, historical aspects of: plea to retain surgical generalist in academic arena (Wangensteen), 692
Prosthesis, tilting-disc, Bjork-Shiley, two years' experience with: aortic valve replacement (Messmer et al.), 772
venous, new (Soyer et al.), 864
Pseudointimal development on microporous polyurethane lattices (Berkowitz, Perloff, and Roberts), 888
Pulmonary artery, right-to-ascending aorta shunts: experience with 100 patients (Waterston, Stark, and Ashcraft), 897
cardiovascular, research, horizons in (Austen), 279
embolism, intravenous cyproheptadine hydrochloride in treatment of: experimental study (Nemir, Hamilton, and Brody), 920
and hemodynamic changes following surgical creation of diaphragmatic hernia in fetal lambs (Kent et al.), 427
intravascular and extravascular volumes in hemorrhagic shock and fluid replacement (Magilligan et al.), 780
metastases, spontaneous, from antigenic murine sarcoma, altered antigeniticity in (Sugarbaker and Cohen), 155
Pulse volume, quantitative segmental, recorder: clinical tool (Darling et al.), 873
Pyloric stenosis upon function of gastric mucosa, effects of (Adkins et al.), 584

R

Radioimmunoassays, long-term, gonadotropin and testosterone: testicular transplantation in rat (Gittes et al.), 187
Rebound phenomenon, avoiding, in simple method for anticoagulation during pre- and postoperative hemodialysis (Kjellstrand and Buselmeier), 630
Reconstruction(s), arterial, intimal and neointimal fibrous proliferation causing failure of (Imparato et al.), 1007
mandibular: bone induction in alloplastic tray (Leake and Rappoport), 332
of subcutaneous esophagus into retrosternal one (Petrov and Sitnik), 369
vascular, clinical experience with preserved human allografts for (Tice and Zerbino), 260
Recorder, volume, pulse, segmental, quantitative: a clinical tool (Darling et al.), 873
Rectum and colon, papillary (villous) adenomas of (Orringer and Eggleston), 378
Rectus abdominis muscle, "spontaneous" hematoma of: critical review with emphasis on early diagnosis and treatment (Titone, Lipsius, and Krakauer), 568
Regeneration, hepatic, glucagon as portal factor modifying (Price et al.), 74
Renal blood flow, total, subcutaneous conduit carrying: experimental preparation in dogs (Sykes and Schenk), 434
homograft recipients, complement system in (Yokoyama et al.), 611
mass, humoral regulation of Van Vroonhoven, Soler-Montesinos, and Malt), 300
preservation, comparative analysis of perfusion and nonperfusion methods for (Santiago-Delphin et al.), 793
Renal—Cont'd
transplantation, correction of enzymatic deficiencies by: Fabry's disease (Desnick et al.), 203
human, reactivity of lymphocytes in mixed culture in response to (Miller and Hattler), 220
vein, end-to-splenic vein shunts for total or selective portal decompression (Warren et al.), 995
Repair of resected liver stump: experimental study (Tsuzuki et al.), 395
of two traumatic aneurysms of supraceliac abdominal aorta in single patient (Yarbrough, Grooms, and Flint), 371
Replacement, esophageal, with jejunum for nonmalignant lesions: 26 years' experience (Dave et al.), 474
fluid, and hemorrhagic shock, pulmonary intravascular and extravascular volumes in (Magilligan et al.), 780
valve, aortic: two years' experience with Bjork-Shiley tilting-disc prosthesis (Messmer et al.), 772
coronary artery vein bypass grafts in patients requiring (Oury et al.), 1037
mitral for mitral incompetence (Kirklin) (John Homans Lecture, Society for Vascular Surgery), 827
Research, bioengineering, and postgraduate training: surgeon and engineer (Drinker), 521
cardiovascular pulmonary, horizons in (Austen) 279
gastrointestinal, horizons in (Silen), 91
Resection, tracheal, for lye stricture (Leape, Ashcraft, and Mann), 357
Residencies, surgical: to shorten or to shrivel? (Moore), 659
Respiratory failure and metabolic alkalosis in critically ill patients (Steer et al.), 408
Resuscitation and hemorrhagic shock, ventilatory response to (Siegel, Cochin, and Moss), 451
Retropubic femorofemoral bypass: new route through space of Retzius (Tyson and Reichle), 401
Retrosternal esophagus, reconstruction of subcutaneous esophagus into (Petrov and Sitnik), 369
Retzius, space of, new route through: retropubic femorofemoral bypass (Tyson and Reichle), 401
Russia, role of government in graduate medical education in (Hilton), 509

S

Saphenous vein grafts, aortocoronary artery, factors influencing patency of (Urschel et al.), 1048
Sarcoma antigen, human, common, and its specific inhibition by sera from patients with growing sarcomas, cellular immunity to (Cohen, Ketcham, and Morton), 560
antigenic murine, altered antigenicity in spontaneous pulmonary metastases from (Sugarbaker and Cohen), 155
Sciences, preclinical, graduate training in (Stetten), 518
Secretion, bile-, studies, and gastroduodenal hormones in isolated perfused pig liver (Gordon et al.), 708

Secretion—Cont'd
cortisol, new concept on pre- and postoperative regulation of (Wise, Margraf, and Ballinger), 290
of gastrin and parathyroid hormone, effects of acute metabolic acid-base changes on (Kaplan, Peskin, and Jaffe), 53
pancreatic exocrine, in dogs, critical nature of gastrin in (Orahood et al.), 42
Secretory response, canine, to gastrin extracted from gastric juice of man (Jordan and Yip), 624
Septic shock, mechanisms of steroid protection in (Schumer, Erve, and Obernolte), 119
Sera from patients with growing sarcomas, cellular immunity to common human sarcoma antigen and its specific inhibition by (Cohen, Ketcham, and Morton), 560
Serum, cell, antiplasma, tumor-inhibitory effect of (Jagarlamoody and McKhann), 149
Service, fee for—will it survive? (Crane and Mozden) (editorial), 486
Shock, dynamics of altered ATP-dependent and ATP-yielding cell processes in (Baue, Wurth, and Sayeed), 94
endotoxin, blood flow to liver and spleen during (Swan and Reynolds), 388
terminal, preservation of myocardial function during cross-circulation in (Greenfield et al.), 111
hemorrhagic, and fluid replacement, pulmonary intravascular and extravascular volumes in (Magilligan et al.), 780
and resuscitation, ventilatory response to (Siegel, Cochin, and Moss), 451
induced mitochondrial damage, influence of cellular acidosis and altered cation concentrations on (Mela, Miller, and Nicholas), 102
myocardial infarction, surgical implications of physiologic patterns in (Siegel et al.), 126
septic, mechanisms of steroid protection in (Schumer, Erve, and Obernolte), 119
Shunt(s), ascending aorta-to-right pulmonary artery: experience with 100 patients (Waterston, Stark, and Ashcraft), 897
end renal vein-to-splenic vein, for total or selective portal decompression (Warren et al.), 995
in lung: two-compartment model (Hechtman et al.), 443
portacaval, for glycogen storage disease: value of prolonged intravenous hyperalimentation before surgery (Folkman et al.), 306
Sickle cell disease and biliary tract disorders (Flye and Silver), 361
Skin, partial-thickness, and wound granulations, nature of bond between (Burleson and Eiseman), 315
Spleen and liver during endotoxin shock, blood flow to (Swan and Reynolds), 388
Staging of lymphomas, exploratory laparotomy for (Elias, Park, and Mittelman), 590
Stenosis, pyloric, upon function of gastric mucosa, effects of (Adkins et al.), 584
Steroid protection in septic shock, mechanisms of (Schumer, Erve, and Obernolte), 119
Stomach and pancreas, cancer of (Maruchi) (letter to editors), 657; reply (Stephenson), 657
Stress, gastric, ulceration, acute, role of microbial flora in (Nance, Kaufman, and Batson), 68
Stricture, lye, tracheal resection for (Leape, Ashcraft, and Mann), 357
Subcutaneous conduit carrying total renal blood flow: experimental preparation in dogs (Sykes and Schenk), 434
esophagus into retrosternal one, reconstruction of (Petrov and Sitnik), 369
Superior mesenteric artery in children, duodenal obstruction by (Wayne and Burrington), 762
Support, cardiopulmonary, total, in 110 patients during heart surgery, Landé-Edwards membrane oxygenator for (Carlson et al.), 913
Supraceliac abdominal aorta, repair of two traumatic aneurysms of (Yarbrough, Grooms, and Flint), 371
Surgeon, cardiac, what he ought to be (Morrow) (Presidential address, Society for Vascular Surgery), 819
and engineer: bioengineering research and postgraduate training (Drinker), 521
Surgery, heart, Landé-Edwards membrane oxygenator for total cardiopulmonary support in 110 patients during (Carlson et al.), 913
open-heart, and aortic valve disease, acute gastrointestinal ulceration with (Katz et al.), 438
value of prolonged intravenous hyperalimentation before: portacaval shunt for glycogen storage disease (Folkman et al.), 306
Surgical care in Britain, observations on: report to the James IV Association of Surgeons (Fonkalsrud), 643
creation of diaphragmatic hernia in fetal lambs, hemodynamic and pulmonary changes following (Kent et al.), 427
education, graduate (*See* Education)
implications of physiologic patterns in myocardial infarction shock (Siegel et al.), 126
manpower drain (Patiño), 668
patient, disseminated candidiasis in (Gaines and Remington), 730
procedures, hospital time for (Tanaka) (letter to editors), 488
residencies: to shorten or to shrivel (Moore), 659
treatment of complete atrioventricular canal (McMullen et al.), 905
trainees in Duke Physician's Associate Program (Detmer et al.), 142
training programs, some, historical aspects of: plea to retain the surgical generalist in academic arena (Wangensteen), 692
Sweden, role of government in graduate medical education in (Gelin), 502
Syndrome, compression, artery, celiac: does it exist? (Szilagyi et al.), 849
pushmi-pullyu (Baue) (editorial), 655
"stone heart" (Wukasch et al.), 1071
Zollinger-Ellison, calcium challenge in (Passaro, Basso, and Walsh), 60
System, complement, in renal homograft recipients (Yokoyama et al.), 611

T

Technique, intestinal xenon, measurement of portal and total hepatic blood flow by (Shizgal and Goldstein), 83
Tension, oxygen, high, effect of, on mucociliary function (Wolfe, Ebert, and Sabiston), 246
Testicular transplantation in rat: long-term gonadotropin and testosterone radioimmunoassays (Gittes et al.), 187
Testosterone and gonadotropin radioimmunoassays, long-term: testicular transplantation in rat (Gittes et al.), 187
Thoracic aorta to femoral arteries bypass grafting from, for high aortoiliac occlusive disease (Nunn and Kamal), 749
duct circulation, extracorporeal, evaluation of antigen-coated columns in: selective immunosuppression (Fitts et al.), 212
Thromboembolism, distal, and proximal coronary arteriosclerotic lesions (Mills and Ochsner), 1030
Thrombophlebitis, acute, noninvasive quantitation of maximum venous outflow in (Barnes et al.), 971
Thrombosis, artery, brachial: management of postcatheterization (Page, Hagood, and Kemmerer), 619
Tissue perfusion and oxygenation and acid-base status, clininal experience with continuous muscle pH monitoring as index of (Filler, Das, and Espinosa), 23
Tracheal resection for lye stricture (Leape, Ashcraft, and Mann), 357
Tract, biliary, disorders and sickle cell disease (Flye and Silver), 361
Training, graduate (*See* Graduate)
postgraduate, and bioengineering research: surgeon and engineer (Drinker), 521
programs, surgical, some, historical aspects of: plea to retain surgical generalist in academic arena (Wangensteen), 692
Transplantation of intact pancreatic islets in rats (Ballinger and Lacy), 175
liver, orthotopic, delayed biliary duct obstruction after (Martineau et al.), 604
renal, correction of enzymatic deficiencies by: Fabry's disease (Desnick et al.), 203
human, reactivity of lymphocytes in mixed culture in response to (Miller and Hattler), 220
testicular, in rat: long-term gonadotropin and testosterone radioimmunnoassays (Gittes et al.), 187
Traumatic aneurysms, two, of supraceliac abdominal aorta in single patient, repair of (Yarbrough, Grooms, and Flint), 371
Treatment, surgical, of complete atrioventricular canal (McMullen et al.), 905
Tumor-inhibitory effect of antiplasma cell serum (Jagarlamoody and McKhann), 149
Wilms', in three successive generations (Brown et al.), 756

U

Ulceration, gastric stress, acute, role of microbial flora in (Nance, Kaufman, and Batson), 68
gastrointestinal, acute, with open-heart surgery and aortic valve disease (Katz et al.), 438
Ultrasonic detection and evaluation of abdominal aortic aneurysms (Leopold, Goldberger, and Bernstein), 939
visualization of arterial lumen (Mozersky et al.), 253
University department of surgery: its structure and role in American medicine (Orloff) (Presidential address, Society of University Surgeons), 1
medicine in Near East: three-year perspective (Harrison), 681

V

Value Guide, Relative, conversion factor (Hanlon) (letter to editors), 488
Valve, aortic, disease, and open-heart surgery, acute gastrointestinal ulceration with (Katz et al.), 438
replacement: two years' experience with Bjork-Shiley tilting-disc prosthesis (Messmer et al.), 772
mitral, for mitral incompetence, replacement of (Kirklin) (John Homans Lecture, Society for Vascular Surgery), 827
replacement, coronary artery vein bypass grafts in patients requiring (Oury et al.), 1037
Vascular reconstruction, clinical experience with preserved human allografts for (Tice and Zerbino), 260
Vein bypass grafts, coronary artery, in patients requiring valve replacement (Oury et al.), 1037
grafts, autogenous, angiographic assessment of (Downs and Morrow), 699
saphenous, aortocoronary artery, factors influencing patency of (Urschel et al.), 1048
renal, end-to-splenic vein shunts for total or selective portal decompression (Warren et al.), 995
splenic-to-end renal vein shunts for total or selective portal decompression (Warren et al.), 995
Vena cava, inferior, membranous obstruction of hepatic portion of: clinical study of nine cases (Kimura et al.), 551
Venous homograft: immunological question (Perloff et al.), 961
outflow, maximum, in acute thrombophlebitis, noninvasive quantitation of (Barnes et al.), 971
portal, and hepatic arterial blood flow, interaction between: experimental study in dog (Kock et al.), 414
prosthesis, new (Soyer et al.), 864
Ventilatory response to hemorrhagic shock and resuscitation (Siegel, Cochin, and Moss), 451
Ventricular function, left, and human coronary artery bypass grafts (Enright et al.), 404
Vessel, small, anastomosis, signs of patency in (Acland), 744
Veterans Administration, view of graduate surgical education from (Eiseman), 546
Villous (papillary) adenomas of colon and rectum (Orringer and Eggleston), 378
Visualization, ultrasonic, of arterial lumen (Mozersky et al.), 253
Volvulus, midgut, familial (Smith), 420

W

Wilms' tumor in three successive generations (Brown et al.), 756
Wound(s), granulations and partial-thickness skin, nature of bond between (Burleson and Eiseman), 315
metabolic and circulatory contributions to oxygen gradients in (Ehrlich, Grislis, and Hunt), 578

X

Xenon, intestinal, technique, measurement of portal and total hepatic blood flow by (Shizgal and Goldstein), 83

Z

Zollinger-Ellison syndrome, calcium challenge in (Passaro, Basso, and Walsh), 60
